<i>Preface</i>	(vii)
----------------------	-------

Chapter 1

Introduction

1.1 Research.....	1
1.2 Basic Research.....	1
1.3 Applied Research.....	2
1.4 Basic Research Vs Applied Research.....	2
1.5 Disciplines of Research.....	2
1.5.1 Research in Science.....	3
1.5.2 Research in Social Sciences.....	3
1.5.3 Research in Engineering.....	3
1.5.4 Research in Medicine.....	3
1.5.5 Research in Agriculture, Veterinary and Food Sciences.....	3
1.5.6 Research in Humanities.....	4
1.6 Types of Research.....	4
1.7 Scientific Research.....	4
1.8 Experimental Research.....	4
1.9 Survey Research.....	5
1.10 Significance of Research.....	5

Chapter 2

Research Process

2.1 Research Problem.....	6
2.2 Objectives of Research.....	8
2.3 Review of Literature.....	10
2.3.1 Internet.....	10
2.3.2 Theses of other Authors.....	10
2.3.3 Research Journals.....	11

2.3.4	Seminars and Symposia.....	11
2.3.5	Latest References.....	11
2.3.6	Old Literature	11
2.4	Preparation of Undertaking Research Problem.....	11
2.4.1	Theoretical Problem	12
2.4.2	Applied Problem in Sciences.....	12
2.4.3	Research Problem in Social Sciences	12

Chapter 3

Methods and Materials

3.1	Materials in Conducting Research	13
3.2	Methods in Conducting Research	14
3.3	Analysis of Variance	14
3.3.1	Variable	14
3.3.2	Data.....	14
3.3.3	Quantitative Variable.....	14
3.3.4	Qualitative Variable.....	15
3.3.5	Random Variable.....	15
3.3.6	Discrete Variable	15
3.3.7	Continuous Variable	15
3.3.8	Population.....	15
3.3.9	Sample	15
3.3.10	Treatment.....	15
3.3.11	Experimental unit	16
3.3.12	Randomization.....	16
3.3.13	Replication.....	16
3.3.14	Local Control.....	16
3.3.15	Control or Control Treatment	16
3.3.16	Analysis of Variance	17
3.3.17	Completely Randomized Design	17
3.3.18	Randomized Block Design	17
3.3.19	Latin Square Design	18

3.3.20 Factorial Experiments.....	19
3.3.20.1 2 ² Factorial Experiment.....	19
3.3.20.2 2 ³ Factorial Experiment.....	21
3.3.20.3 Mixed Factorial Experiment	21

Chapter 4

Sampling Methods

4.1 Introduction.....	22
4.2 Census.....	22
4.3 Sample	23
4.4 Sampling Design.....	23
4.4.1 Probability Sampling Methods	24
4.4.2 Non-Probability Sampling Methods	24
4.5 Simple Random Sampling	24
4.5.1 Selection of a Random Sample.....	24
4.5.2 Sampling without Replacement.....	25
4.5.3 Lottery Method of Sampling	25
4.5.4 Sampling with Replacement.....	26
4.5.5 Accuracy.....	26
4.5.6 Accuracy of Measurement.....	26
4.5.7 Precision	26
4.5.8 Standard Error.....	27
4.5.9 Confidence Interval	27
4.5.10 Estimates of Population Mean and Standard Error in Simple Random Sampling	28
4.6 Stratified Random Sampling.....	29
4.6.1 Proportional Allocation of Sample	29
4.6.2 Neyman's Allocation or Optimum Allocation.....	30
4.6.3 Selection of a Sample with Probability Proportional to Size	31
4.6.4 Estimates of Population Mean and Standard Error.....	32

4.6.5	Merits and Demerits of Stratified Random Sampling.....	32
4.6.5.1	Merits	32
4.6.5.2	Demerits	33
4.7	Cluster Sampling Method	33
4.7.1	Estimates of Population Mean and Standard Error.....	33
4.8	Systematic Sampling.....	34
4.8.1	Estimates of Population Mean and Standard Error.....	35
4.8.2	Merits and Demerits of Systematic Sampling	36
4.8.2.1	Merits	36
4.8.2.2	Demerits	36
4.9	Two-Stage Sampling.....	36
4.9.1	Estimates of Population Mean and Standard Error.....	37
4.9.2	Merits and Demerits of Two-stage Random Sampling Method	38
4.9.2.1	Merits	38
4.9.2.2	Demerits	38
4.10	Non-Probability Sampling Methods	38
4.10.1	Purposive Sampling	38
4.10.1.1	Merits	39
4.10.1.2	Demerits	39
4.10.2	Convenience Sampling	39
4.10.3	Quota Sampling	39
4.11	Sampling Errors	40
4.12	Non-Sampling Errors	40
4.12.1	Observational Errors.....	40
4.12.2	Incomplete Samples.....	40
4.13	Choice of Sampling Methods.....	41
4.14	Size of the Sample	41
4.15	Determination of Sample Size	42
4.16	Longitudinal Survey.....	43

Chapter 5

Scale Construction Methods

5.1 Measurement.....	44
5.1.1 Nominal Scale.....	44
5.1.2 Ordinal Scale	45
5.1.3 Interval Scale	45
5.1.4 Ratio Scale.....	46
5.2 Scaling	46
5.2.1 Attitude	46
5.3 Method of Paired Comparisons.....	47
5.4 Consistency	50
5.5 Incomplete Data	52
5.6 Test of Significance	55
5.7 Discriminal Dispersion	57
5.8 Equal-Interval Method	59
5.8.1 Inter-Quartile Range	61
5.9 Summated Ratings	63
5.9.1 Selection of Statements	65
5.9.2 Summated Rating	66
5.10 Scalogram Analysis	67

Chapter 6

Elementary Decision Theory

6.1 Linear Programming: Graphical Method.....	69
6.1.1 Graphical Method (Three dimensional case).....	73
6.2 Simplex Method I	75
6.3 Simplex Method II.....	80
6.4 Transportation Model.....	84
6.4.1 Linear Function.....	84
6.4.2 Linear Function with Constraints	85
6.4.3 Transportation Problem	85

6.4.4 North West Corner Method	87
6.4.5 Stepping Stone Method I	88
6.4.6 Stepping Stone Method II.....	89
6.5 Decision Under Uncertainty	91
6.6 Decision making using Baye's Theorem	92
6.7 Decision Tree Diagram	94

Chapter 7

Collection of Data

7.1 Introduction.....	98
7.2 By Investigator Method	98
7.3 Questionnaire Method.....	99
7.3.1 Merits.....	99
7.3.2 Demerits.....	99
7.3.3 Applications.....	100
7.4 Schedule Method	100
7.4.1 Merits.....	101
7.4.2 Demerits.....	101
7.4.3 Applications.....	102
7.5 Telephone Method	102
7.5.1 Merits.....	102
7.5.2 Demerits.....	103
7.5.3 Applications.....	103
7.6 Video Conference Method.....	103
7.6.1 Merits.....	103
7.6.2 Demerits.....	104
7.6.3 Applications.....	104
7.7 Collection of Secondary Data	104

Chapter 8

Data Organization

8.1 Introduction.....	106
8.2 Inclusive Method of Grouping	107

8.3 Exclusive Method of Grouping.....	107
8.4 Diagrammatic Representation.....	108
8.4.1 Bar Diagram/Chart	108
8.4.2 Component Bar Diagram/Chart.....	109
8.4.3 Multiple Bar Diagram/Chart.....	110
8.4.4 Pie Diagram/Chart	111
8.4.5 Pictogram/Pictochart	112
8.4.6 Merits.....	112
8.4.7 Demerits.....	112
8.5 Graphic Representation of Data.....	112
8.5.1 Histogram	113
8.5.2 Frequency Polygon	114
8.5.3 Frequency Curve.....	114
8.5.4 Cumulative Frequency Curves (Ogives)	115

Chapter 9

Measures of Central Tendency and Dispersion

9.1 Measures of Central Tendency	117
9.1.1 Arithmetic Mean.....	117
9.1.1.1 Characteristics of a Satisfactory Average	119
9.1.1.2 Merits	119
9.1.1.3 Demerits	119
9.1.2 Median.....	120
9.1.2.1 Merits	122
9.1.2.2 Demerits	122
9.1.3 Mode.....	122
9.1.3.1 Merits	124
9.1.3.2 Demerits	124
9.1.4 Geometric Mean	124
9.1.4.1 Merits	126
9.1.4.2 Demerits	126
9.1.5 Harmonic Mean	127
9.1.5.1 Merits	128
9.1.5.2 Demerits	128

9.2 Measures of Dispersion.....	128
9.2.1 Range.....	129
9.2.2 Quartile Deviation (Q.D).....	130
9.2.3 Mean Deviation (M.D.).....	133
9.2.4 Standard Deviation (S.D.).....	136
9.3 Skewness.....	139
9.4 Kurtosis.....	141

Chapter 10

Tests of Hypotheses

10.1 Introduction.....	143
10.1.1 Null Hypothesis.....	144
10.1.2 Alternate Hypothesis.....	144
10.1.3 Level of Significance.....	144
10.1.4 Degrees of Freedom.....	144
10.2 One Sample S.N.D. Test (Z-test).....	146
10.3 Two Sample S.N.D. Test (Z-test).....	149
10.4 Student's t-distribution.....	151
10.4.1 One Sample t-test.....	151
10.4.2 Two Sample t-test (Independent t-test).....	153
10.4.3 Paired t-test (Dependent t-test).....	156
10.5 S.N.D. Tests for Proportions.....	157
10.5.1 One-sample S.N.D. Test for Proportion.....	158
10.5.2 Two-sample S.N.D. Test for Proportions.....	159

Chapter 11

Chi-square Distribution

11.1 Introduction.....	162
11.2 Properties.....	163
11.3 Chi-square Test.....	163
11.3.1 Measurement data.....	163
11.3.2 Enumeration data.....	163

11.3.3 Applications of chi-square test	163
11.3.4 Chi-square Test for Goodness of Fit.....	164
11.3.5 Chi-square test in 2×2 contingency table.....	165
11.3.6 Yates Correction	167
11.3.7 Ch-Square Test in $m \times n$ contingency table.....	168

Chapter 12

Correlation and Regression

12.1 Correlation	170
12.2 Test of Significance	173
12.3 Regression.....	175
12.3.1 Test of Significance of Regression Coefficient	177
12.3.2 Regression Equation of x on y.....	178
12.3.3 Test of Significance of Regression Coefficient of x on y	179
12.3.4 Correlation Vs Regression.....	182
12.4 Partial Correlation.....	182
12.4.1 Test of Significance	183
12.5 Multiple Regression and Correlation	185
12.5.1 Multiple Regression.....	185
12.5.1.1 Multiple Linear Regression with Two Independent Variables	185
12.5.1.2 Test of Significance of Overall Regression	187
12.5.1.3 Test of Significance of Partial Regression Coefficients	188
12.6 Multiple Correlation.....	192
12.6.1 Test of Significance of R^2	193
12.7 Multiple Linear Regression with more than Two Independent Variables	193
12.7.1 Test of Significance of Overall Regression	195
12.7.2 Test of Significance of Partial Regression.....	195
12.8 Path Coefficient Analysis	196

Chapter 13

Analysis of Variance

13.1 One-way Analysis of Variance	198
13.2 Two-Way Analysis of Variance.....	203
13.3 Three-way Analysis of Variance.....	207

Chapter 14

Time Series and Index Numbers

14.1 Time Series	213
14.1.1 Analysis of Time Series Data	213
14.1.2 Secular Trend or Long Time Trend	216
14.1.2.1 Trend Fitting by Observation	216
14.1.2.2 Method of Semi Averages.....	216
14.1.2.3 Method of Least Squares.....	217
14.1.2.4 Fitting of 1 st Degree Polynomial or Straight Line.....	217
14.1.2.5 Fitting of 2 nd Degree Polynomial	219
14.1.2.6 Fitting of Exponential Curve.....	221
14.1.2.7 Fitting of 2 nd Degree Exponential Curve.....	222
14.1.2.8 Fitting of Modified Exponential Curve.....	222
14.1.2.9 Fitting of Gompertz Curve	224
14.1.2.10 Fitting of Logistic Curve.....	225
14.1.3 Seasonal Variation	225
14.1.3.1 Deseasonalisation of Time Series Data	228
14.1.3.2 Forecasting the Value of any Season	228
14.1.4 Cyclical Variation.....	232
14.2 Index Numbers.....	232
14.2.1 Uses of Index Numbers	232
14.2.2 Price Relative.....	233
14.2.3 Price Index Number	233
14.2.4 Laspeyre's Price Index Number	233

14.2.5 Paasche's Price Index Number	234
14.2.6 Marshall-Edgeworth Price Index Number	234
14.2.7 Fishers Price Index Number	235
14.2.7.1 Time Reversal Test	235
14.2.7.2 Factor Reversal Test.....	235
14.2.8 Chain Index Number	237
14.2.9 Quantity Index Numbers	239
14.2.10 Points for Construction of Index Numbers	239

Chapter 15

Non-Parametric Tests

15.1 Introduction.....	241
15.1.1 Power of the Test.....	241
15.2 Parametric Vs Non-Parametric Tests	242
15.3 One-sample Tests.....	242
15.3.1 Chi-square Test.....	243
15.3.2 Run-Test	244
15.4 Two Related Samples Test (Wilcoxon Test)	246
15.5 Two Independent Samples Test (Mann-Whitney Test).....	250
15.6 Test of P-related Samples (Friedman's Test).....	252
15.7 Test of P-independent Samples (Kruskal-Wallis Test).....	254
15.8 Rank Correlation.....	256
15.8.1 Test of Significance	256

Chapter 16

Elementary Queuing Theory

16.1 Introduction.....	258
16.2 Concepts of Queuing Theory	259
16.2.1 Input Process.....	259
16.2.2 Queue Discipline	259
16.2.3 Service Mechanism.....	259

16.3	Terms used in Queuing Theory.....	260
16.3.1	Arrival Rate	260
16.3.2	Service Rate	260
16.3.3	Customers	260
16.3.4	Service Station.....	260
16.3.5	Waiting Time	261
16.3.6	Time Spent by a Customer in the System.....	261
16.3.7	Number of Customers in the System	261
16.3.8	Queue Length	261
16.3.9	Jockeying	261
16.3.10	Reneging	261
16.3.11	Balking	261
16.3.12	Queuing System.....	261
16.3.12.1	Model 1	261
16.3.12.2	Model 2	264

Chapter 17

Multivariate Statistical Methods

17.1	Introduction.....	266
17.2	Hotelling – T^2	267
17.2.1	One Sample Case.....	267
17.2.1.1	Test of Significance	268
17.2.2	Two Sample Case	268
17.3	Classification by Discriminant Function.....	269
17.3.1	Classification for Two Groups.....	269
17.4	Principal Component Analysis	270
17.5	Factor Analysis	272
17.5.1	Model for Factor Analysis	272

Chapter 18

Report Writing

18.1	Introduction.....	274
18.2	Results and Discussion	274
18.2.1	Results	275
18.2.2	Discussion.....	275

18.3	Formats of Project Report.....	277
18.3.1	Format for Ph.D Thesis	277
18.3.1.1	Introduction.....	277
18.3.1.2	Materials and Methods.....	278
18.3.1.3	Results and Discussion.....	278
18.3.1.4	Summary and Conclusions.....	279
18.3.1.5	Bibliography or Literature Cited	279
	Appendix	281
	Bibliography	295
	Index	297
