
CONTENTS

<i>Preface</i>	(vii)
<i>Symbols</i>	(xix)
<i>Brief History of Electronics</i>	(xxii)

Chapter 1

Semiconductor and Magnetic Material	1-11
1.1 Introduction	2
1.2 Semiconductor Materials (Group-IV)	2
1.3 Opto-Electronic Devices Semiconductor Materials	4
1.4 Energy Bands and Electrical Conduction	8
1.5 Semi-insulators	9
1.6 Magnetic Semiconductors	9
<i>Summary</i>	9
<i>Multiple Choice Questions</i>	10
<i>Long Questions</i>	49

Chapter 2

Electron Dynamics and CRO	11-50
2.1 Electron Dynamics	12
2.2 Motion of Charged Particles in Electric and Magnetic Fields	12
2.3 Simple Problems Involving Electric and Magnetic Fields Only	34
2.4 Principles of CRT	36
2.5 Deflection Sensitivity	39
2.6 Applications of CRO	46

<i>Summary</i>	46
<i>Objective Type Questions</i>	47
<i>Essay Type Questions</i>	48
<i>Multiple Choice Questions</i>	48
<i>Conceptual Questions</i>	49

Chapter 3

Junction Diode Characteristics	51-148
3.1 Review of Semiconductor Physics	52
3.2 Energy Band Structures	73
3.3 Conduction in Semiconductors	74
3.4 Conductivity of an Intrinsic Semiconductor	78
3.5 Donor Type or n-Type Semiconductors	79
3.6 Acceptor Type or p-Type Semiconductors	80
3.7 Ionization Energy	80
3.8 Holes and Electrons	80
3.9 Mass Action Law	82
3.10 Law of Electrical Neutrality	82
3.11 The Fermi Dirac Function	87
3.12 Total Current in a Semiconductor	96
3.13 Einstein Relationship	102
3.14 Continuity Equation.....	102
3.15 The Hall Effect.....	104
3.16 Semiconductor Diode Characteristics	108
3.17 The p-n Junction Diode in Reverse Bias	110
3.18 The p-n Junction Diode in Forward Bias	110
3.19 Band Structure of an Open Circuit p-n Junction	111
3.20 The Current Components in a p-n Junction Diode	114
3.21 Law of the Junction	115
3.22 Diode Current equation	116
3.23 Volt-Ampere Characteristics of a p-n Junction diode	117
3.24 Temperature Dependence of p-n Junction Diode Characteristics	119

3.25	Space Charge or Transition Capacitance C_T	120
3.26	Diffusion Capacitance, C_D	123
3.27	Diode Switching Times	125
3.28	Break Down Mechanism	130
3.29	Zener Diode	131
3.30	The Tunnel Diode	132
3.31	Varactor Diode	135
	<i>Summary</i>	141
	<i>Objective Type Questions</i>	142
	<i>Essay Type Questions</i>	143
	<i>Multiple Choice Questions</i>	144
	<i>Conceptual Questions</i>	146

Chapter 4

Rectifiers, Filters and Regulators	150-198	
4.1 Rectifiers	150	
4.2 Half-Wave Rectifier	150	
4.3 Full Wave Rectifier (FWR)	160	
4.4 Bridge Rectifiers	164	
4.5 Comparison of Rectifier Circuits	165	
4.6 Voltage Doubler Circuit	166	
4.7 Inductor Filter Circuits	166	
4.8 Capacitor Filter	171	
4.9 LC Filter (L-Section Filter)	175	
4.10 CLC or π Filter	179	
4.11 Multiple LC Filters	183	
4.12 Introduction to Regulators (Zener and shunt regulators)	187	
4.13 Terminology	196	
	<i>Summary</i>	197
	<i>Objective Type Questions</i>	197
	<i>Essay Type Questions</i>	198
	<i>Multiple Choice Questions</i>	198

Chapter 5

Transistor Characteristics	199-280
5.1 Bipolar Junction Transistors (BJT's)	200
5.2 Transistor Construction	204
5.3 The Ebers-Moll Equation	205
5.4 Types of Transistor Configurations	206
5.5 Convention for Transistors and Diodes	216
5.6 Field Effect Transistor (FET)	227
5.7 FET Structure	229
5.8 FET Operation	233
5.9 JFET Volt-Ampere Characteristics	236
5.10 Transfer Characteristics of FET	238
5.11 FET Small Signal Model	242
5.12 FET Tree	247
5.13 The Depletion MOSFET	254
5.14 CMOS Structure (Complementary MOS)	257
5.15 Silicon Controlled Rectifier	260
5.16 Unijunction Transistor (UJT)	265
5.17 LED's	269
5.18 Photo Diodes	269
5.19 Photo Transistors	270
<i>Summary</i>	271
<i>Objective Type Questions</i>	272
<i>Essay Type Questions</i>	273
<i>Multiple Choice Questions</i>	274

Chapter 6

Transistor Biasing and Stabilization	281-326
6.1 Transistor Biasing	282
6.2 Fixed Bias Circuit or (Base Bias Circuit)	284
6.3 Bias Stability	285

6.4	Thermal Instability	285
6.5	Stability Factor 'S' for Fixed Bias Circuit	286
6.6	Collector to Base Bias Circuit	287
6.7	Self Bias or Emitter Bias Circuit	290
6.8	Stability Factor 'S' for Self Bias Circuit	291
6.9	Stability Factor S'	292
6.10	Stability Factor S'' for Self Bias Circuit	294
6.11	Practical Considerations	294
6.12	Bias Compensation Techniques	295
6.13	Biassing Circuits For Linear Integrated Circuits	298
6.14	Thermistor and Sensistor Compensation	299
6.15	Thermal Runaway	300
6.16	Stability Factor S'' for Self Bias Circuit	306
6.17	FET Biassing	312
6.18	Basic FBT Circuits	316
	<i>Summary</i>	323
	<i>Objective Type Questions</i>	324
	<i>Essay Type Questions</i>	324
	<i>Multiple Choice Questions</i>	325
	<i>Conceptual Questions</i>	326

Chapter 7

Amplifiers	327-394	
7.1	Introduction	328
7.2	Black Box Theory	328
7.3	Transistor Hybrid Model	332
7.4	Transistor in Common Emitter Configuration	332
7.5	Determination of h-Parameters From the Characteristics of a Transistor	333
7.6	Common Collector Configuration (CC)	335
7.7	Hybrid Parameter Variations	336

7.8	Conversion of Parameters From C.B. to C.E.	337
7.9	Measurement of h-Parameters.....	339
7.10	General Amplifier Characteristics	341
7.11	Analysis of Transistor Amplifier Circuit Using h-Parameters	344
7.12	Comparison of the CE, CB, CC Configurations in terms of A_v , A_v , R_i , R_o	348
7.13	Small Signal Analysis of Junction Transistor	351
7.14	High Input Resistance Transistor Circuits	368
7.15	Boot Strapped Darlington Circuit	372
7.16	The Cascode Transistor Configuration	375
7.17	The JFET Low frequency Equivalent Circuits.....	379
7.18	Comparison of FET and BJT Characteristics	383
7.19	R. C. Coupled Amplifier	384
7.20	Concept of f_α , f_β and f_T	387
	<i>Summary</i>	389
	<i>Objective Type Questions</i>	390
	<i>Essay Type Questions</i>	391
	<i>Multiple Choice Questions</i>	392
	<i>Conceptual Questions</i>	394

Chapter 8

Frequency Response	395-455	
8.1	Introduction	396
8.2	Definicion of Cut-off Frequency and Bandwidth	397
8.3	Effect of Various Capacitors on Frequency Response	419
8.4	Low-Frequency Response of Common-Emitter Amplifier	420
8.5	Low-Frequency Response of Common Source Amplifier.....	425
8.6	High-Frequency Response of Common-Emitter Amplifier	428
8.7	High-Frequency Response of Common-Source Amplifier	433
8.8	Two-Stage RC-Coupled CE-CB Cascade Amplifier	438
8.9	Two-Stage RC-Coupled CE-CB Cascade Amplifier	439
8.10	Two-Stage RC-Coupled CE-CC Amplifier	446

8.11	Low-Frequency Response of Source Follower	450
	<i>Summary</i>	452
	<i>Self Test</i>	452
	<i>Long Questions</i>	454

Chapter 9

Feedback Amplifiers	456-503	
9.1	Feedback Amplifiers	457
9.2	Classification of Amplifiers	457
9.3	Feedback Concept	460
9.4	Types of Feedback	462
9.5	Effect of Negative Feedback on Transfer Gain	462
9.6	Transfer Gain with Feedback	467
9.7	Classification of Feedback Amplifiers	471
9.8	Effect of Feedback on Input Resistance	472
9.9	Effect of Negative Feedback on R_o	475
9.10	Analysis of Feedback Amplifiers	481
	<i>Summary</i>	499
	<i>Objective Type Questions</i>	500
	<i>Essay Type Questions</i>	501
	<i>Multiple Choice Questions</i>	502
	<i>Conceptual Questions</i>	503

Chapter 10

Multistage Amplifier and Tuned Amplifier	504-549	
10.1	Introduction	505
10.2	Cascade Amplifier	505
10.3	Amplifier Coupling	508
10.4	Different Coupling Used in Multistage Amplifier	508
10.5	Effect of Coupling Capacitor on Low Frequency Response	525
10.6	Emitter Follower	526
10.7	Source Follower	527

10.8	Darlington Connection	527
10.9	Boot Strapping	532
10.10	Tuned Amplifier	534
	<i>Solved Examples</i>	544
	<i>Summary</i>	546
	<i>Objective Type Questions</i>	547
	<i>Essay Type Questions</i>	547
	<i>Multiple Choice Questions</i>	548
	<i>Self-Test</i>	547

Chapter 11

Large Signal (Power) Amplifiers	550-586	
11.1	Voltage Amplifier and Power Amplifier: A Difference	552
11.2	Transistor Power Amplifier: Single Ended	554
11.3	Direct Coupled Class-A Amplifier with Resistive Load	558
11.4	Transformer Coupled Class-A Amplifier	561
11.5	Class-A Push-Pull Amplifier	565
11.6	Class-B Amplifier	568
11.7	Class-C Amplifier	570
11.8	Class-B Push-Pull Amplifier	571
11.9	Complementary Symmetry Push-Pull Class-B Amplifier	575
11.10	Class-AB Operation and Cross-Over Distortion	576
11.11	Thermal Runaway	578
11.12	Power Consideration and Heat-Sinks	579
	<i>Summary</i>	580
	<i>Essay Type Questions</i>	585
	<i>Problems</i>	586

Chapter 12

Oscillators	587-612	
12.1	Oscillators	588
12.2	Sinusoidal Oscillators	591

12.3	Barkhausen Criterion	591
12.4	R – C Phase-Shift Oscillator (Using JFET)	592
12.5	Transistor RC Phase-Shift Oscillator	595
12.6	A General form of LC Oscillator Circuit	598
12.7	Loop Gain	598
12.8	Wien Bridge Oscillator	601
12.9	Expression for f	602
12.10	Thermistor	603
12.11	Sensistor	603
12.12	Amplitude Stabilization	603
12.13	Applications	604
12.14	Resonant Circuit Oscillators	604
12.15	Crystal Oscillators	605
12.16	Frequency Stability	606
12.17	Frequency of Oscillations for Parallel Resonance Circuit.....	607
12.18	1-MHz FET Crystal Oscillator Circuit.....	607
	<i>Summary</i>	608
	<i>Objective Type Questions</i>	609
	<i>Essay Type Questions</i>	610
	<i>Multiple Choice Questions</i>	611
	<i>Conceptual Questions</i>	612

Chapter 13

Operational Amplifier	607-661
13.1 Introduction	616
13.2 Ideal Op-Amp	616
13.3 Op-loop Op-amp Configuration	623
13.4 Block Diagram of Op-amp	625
13.5 The Switch Hitter	640
13.6 The Instrumentation Amplifier	641
13.7 Low Pass Amplifiers: The Inverting Low-Pass Amplifiers	643
13.8 High Pass Amplifiers	646
13.9 The Op-amp as a Comparator	649

13.10	Advantages of Negative Feedback	652
13.11	Logarithmic Amplifier using Op-amp	653
13.12	Antilogarithmic Amplifier	655
	<i>Summary</i>	655
	<i>Short Problem</i>	656
	<i>Essay Type Problems</i>	656
	<i>Multiple Type Questions</i>	658

Chapter 14

Multivibrators	663-694	
14.1	Introduction	664
14.2	Multivibrators and their Principle	664
14.3	Multivibrators using BJTS	665
14.4	Voltage Multipliers	669
14.5	Precision Rectifier	670
14.6	Sample and Hold Circuit	674
14.7	Op-amp Square Wave Generator (Astable Multivibrator)	676
14.8	Triangular Wave Generator	680
14.9	Saw Tooth Wave Generator (Ramp generator)	681
14.10	55-Time IC	683
14.11	Bistable Multivibrator using Op-amp	690
	<i>Summary</i>	691
	<i>Objective Type Questions</i>	692
	<i>Long Problems</i>	694

Appendix	695-728
-----------------------	----------------

Answers	729-739
----------------------	----------------

Index	741-743
--------------------	----------------
