Foreword	(vii)
Preface	(ix)

Unit-I

Chapter 1

Introduction and Historical Background

1.1	Introduction.....	3
1.2	Historical Background	3
	1.2.1 Antiquity.....	3
	1.2.2 Middle Ages.....	4
	1.2.3 Age of Enlightenment.....	5
	1.2.4 Modern Toxicology.....	6
	1.2.5 After World War II.....	6
1.3	Status of Toxicology in India	7
	1.3.1 Professional Organization and Academic Recognition	7
	1.3.2 Published Toxicology Literature	8

Chapter 2

Definitions and Scope of Toxicology

2.1	Definitions.....	11
2.2	Sub-disciplines of Toxicology	12
2.3	Toxicant and Types of Toxicants	13
2.4	Toxicity and Toxic Effects	14
2.5	Toxicity in Relation to Time of Development and Duration of Induced Effects.....	15
2.6	Dose and Related Terms	15
2.7	Sources of Poisoning	17
	2.7.1 Accidental Poisoning.....	17
	2.7.2 Malicious Poisoning.....	17
	2.7.3 Occupational Exposure	18
2.8	Duration and Frequency of Exposure	18

Chapter 3**Classification of Poisons/Toxicants**

3.1	Introduction.....	19
3.2	Classification of Poisons	20
3.3	Actions of Poisons.....	21

Chapter 4**Factors Affecting Toxicity**

4.1	Introduction.....	22
4.2	Factors Affecting Toxicity	22
4.2.1	Host Factors	23
4.2.2	Factors Related to Toxicant or Associated with Xenobiotics	25
4.2.3	Environmental Conditions	27

Chapter 5**Natural Laws Concerning Toxicology**

5.1	Introduction.....	29
5.2	Tolerance	30
5.3	Dose	30
5.4	Time Action Curves.....	33
5.5	Dose-Response Relationship.....	34
5.5.1	Graded or Gradual Dose-Response Relationship	34
5.5.2	Quantal or All-or-None Dose-Response Relationship	35
5.6	Statistical Concept of Toxicity	37
5.7	Variables of Dose-Response Curve.....	38
5.8	Frequently used Terms for Safety Evaluation of Drugs	38
5.9	Interaction with Receptors.....	39
5.10	Types of Xenobiotics	40
5.11	Xenobiotic/Drug Interaction.....	40
5.12	Nature and Extent of Toxicity Testing	40

Chapter 6**Hazard and Risk Assessment**

6.0	Introduction.....	42
6.1	Risk Assessment Approach	43
6.1.1	Preliminary Evaluation.....	44
6.1.2	Toxicity Assessment.....	44
6.1.3	Exposure Assessment.....	47
6.2	Conclusion.....	48

Unit-II**Chapter 7****Absorption, Distribution and Excretion of Toxicants**

7.1	Introduction.....	51
7.2	Translocation of Xenobiotics Across Membranes	52
7.2.1	Membrane Permeability	52
7.2.2	Mechanism of Chemical Transfer	52
7.2.3	Processes of Transport	53
7.3	Absorption	56
7.3.1	Gastrointestinal (GI)	57
7.3.2	Skin.....	57
7.3.3	Lungs.....	58
7.3.4	Parenteral Administration	59
7.4	Distribution	59
7.4.1	Tissue Permeability Barriers	60
7.4.2	Transfer across other Membranes	61
7.4.3	Factors Affecting Distribution and Tissue Retention	62
7.4.4	Binding to Biological Macromolecules and Toxic Effects.....	63
7.4.5	Redistribution	63
7.5	Excretion	63
7.5.1	Renal Excretion	64
7.5.2	Biliary Excretion.....	65
7.5.3	GI Tract.....	66
7.5.4	Expired Air.....	66
7.5.5	Sweat.....	66
7.5.6	Saliva	66

7.5.7	Milk	67
7.5.8	Vaginal Secretions	67
7.5.9	Other Routes	67

Chapter 8

Biotransformation

8.1	Introduction.....	68
8.2	Functions of Biotransformation	68
8.3	Xenobiotic Metabolizing Enzymes	69
8.4	Pathways of Biotransformation	69
8.4.1	Phase I Reactions (Non-synthetic or Non-conjugative Phase)	70
8.4.2	Phase II Reactions or Conjugation/Synthetic Reactions	73
8.5	Complex Nature of Biotransformation	77
8.6	Induction and Inhibition of Metabolizing Enzymes	77
8.6.1	Induction of Enzymes	77
8.6.2	Inhibition of Enzymes	78
8.7	Bioactivation and Tissue Toxicity	78
8.7.1	Electrophiles	79
8.7.2	Free Radicals	79
8.7.3	Nucleophiles	80
8.7.4	Other Pathways	80

Chapter 9

Principles and Basic Concepts of Toxicokinetics

9.1	Introduction.....	81
9.2	Essentials of Toxicokinetic/Pharmacokinetic Principles.....	82
9.3	Plasma Drug Concentration versus Time	82
9.4	Orders of Rate Processes	84
9.5	Toxicokinetic Models	85
9.5.1	Classic Toxicokinetics	85
9.5.2	Non-compartment Models/Non-compartment Analysis	97
9.5.3	Physiological Based Toxicokinetics	97
9.6	Determination of Dose/Dosage Regimen.....	99

Unit-III**Chapter 10****Toxicological Testing: Genesis**

10.1	Introduction.....	105
10.2	Historical Background	106
10.3	Current Status	106
10.4	Toxicology Testing Guidelines for Drugs	108
10.5	Good Laboratory Practices (GLP).....	110
10.5.1	Historical Background	110
10.5.2	Principles of GLP.....	110
10.5.3	GLP-Compliance in India	111
10.6	Conclusion.....	111

Chapter 11**Toxicological Testing: *In vivo* Systems**

11.1	Introduction.....	112
11.2	Administration of Toxicants	112
11.3	Routes of Administration	113
11.4	Chemical and Physical Properties	113
11.5	Exposure and Environmental Fate.....	114
11.6	<i>In vivo</i> Tests	114
11.6.1	Acute and Subchronic Toxicity Tests	114
11.6.2	Acute Oral Toxicity Testing	115
11.6.3	Eye Irritation	115
11.6.4	Dermal Irritation and Sensitization	116
11.6.5	Safety Pharmacology Studies	117
11.6.6	Subchronic Tests.....	118
11.6.7	Repeated Dose Dermal Tests.....	119
11.6.8	Twenty-Eight-to Ninety-Day Inhalation Tests	119
11.6.9	Chronic Tests	120
11.6.10	Chronic Toxicity and Carcinogenicity	120
11.7	Development and Reproductive Toxicity (DART)	120
11.7.1	Single and Multiple-Generation Tests	122
11.7.2	Teratology	125
11.7.3	Perinatal and Postnatal Effects	128

11.8	Special Tests.....	128
11.8.1	Neurotoxicity.....	129
11.8.2	Potentialiation and Synergism	129
11.8.3	Toxicokinetics and Metabolism	129
11.8.4	Covalent Binding	129
11.8.5	Immunotoxicity	129
11.9	<i>In vitro</i> and other Short-Term Tests	130
11.10	Ecological Effects	130
11.10.1	Laboratory Tests	130
11.10.2	Simulated Field Tests.....	130
11.10.3	Field Tests.....	130
11.11	Risk Analysis	130

Chapter 12

Toxicological Testing: *In vitro* Models

12.1	Introduction.....	131
12.2	Animal Welfare Legislation.....	131
12.3	<i>In vitro</i> Models	132
12.4	Permanent Cell Lines	133
12.5	Primary Cultures.....	133
12.6	Organotypic or Whole Organ Cultures	134
12.7	<i>In vitro</i> Embryotoxicity Testing	134
12.7.1	Introduction.....	134
12.8	Principles of <i>In vitro</i> Embryotoxicity Testing.....	135
12.9	Use of <i>In vitro</i> Models/Alternative Test Methods	136
12.10	Rat/Mice Embryos as a Model	136
12.11	Use of Cultured Embryos	137
12.12	Endpoint Determination for <i>In vitro</i> Testing Systems.....	138
12.13	Conclusion.....	138

Chapter 13

Genotoxicity

13.1	Introduction.....	139
------	-------------------	-----

13.2	Historical Background	139
13.3	Germ Cell Mutation	140
13.4	DNA Mutations	142
13.5	Mutagens are Carcinogens	143
13.6	Impact on Human Health.....	143
13.7	DNA Damage and Mechanism.....	143
13.8	Regulatory Requirements /Guidelines	144
13.9	Assays for Detection of Genetic Alterations.....	145
13.10	Prokaryote Mutagenicity.....	146
13.11	Eukaryote Mutagenicity	147
13.12	Conclusion.....	151

Chapter 14**Preclinical Toxicological Investigations
of Pharmaceutical Products**

14.1	Introduction.....	152
14.2	Safety Evaluation of Pharmaceutical Products	153
14.2.1	Discovery Phase	156
14.2.2	Preclinical Toxicology Testing.....	156
14.2.3	Preclinical Development Phase	156
14.2.4	Studies on Environmental Safety	157
14.2.5	Post Market Surveillance.....	157
14.2.6	Estimation of the Dose	157
14.3	Conclusion.....	158

Chapter 15**Preclinical Safety Evaluation of
Biotechnology-Derived Products**

15.1	Introduction.....	159
15.2	Background	159
15.3	Regulatory Considerations	160
15.4	General Principles	160

15.5	General Toxicological Profile	160
15.5.1	Absorption, Disposition and Clearance in Relevant Animal Models.....	161
15.5.2	Specific Toxicity Tests.....	161
15.5.2.1	Immunotoxicity Studies	161
15.5.2.2	Development and Reproduction Toxicity (DART)	161
15.5.2.3	Chronic Studies.....	162
15.5.2.4	Additional Studies.....	162
15.6	Conclusion.....	162

Chapter 16

Preclinical Regulatory Toxicology for Biomaterials and Medical Devices

16.1	Introduction.....	163
16.2	Regulations	163
16.3	Objectives.....	164
16.4	Extract Preparations.....	164
16.5	Test Protocols	164
16.6	Short Term Tests.....	164
16.6.1	Acute Toxicity	164
16.7	Pyrogenicity.....	164
16.8	Hemolytic Properties	165
16.9	Intracutaneous/Intradermal Reactivity Test.....	165
16.10	Skin Irritation	165
16.11	Long Term Tests	165
16.11.1	Delayed Hypersensitivity/Sensitization Test	165
16.12	Implantation	166
16.13	Genotoxicity.....	166
16.14	Supplementary Tests	166
16.14.1	Sub Chronic Toxicity	166
16.15	Chronic Toxicity.....	167
16.16	Carcinogenicity.....	167

16.17	Developmental and Reproductive Toxicity (DART)	167
16.18	Conclusion.....	167

Unit-IV

Chapter 17

Toxic Effects of Pesticides (Agrochemicals)

17.1	Introduction.....	171
17.2	Historical Background	172
17.3	Definition and Classification	172
17.4	Insecticides.....	173
17.4.1	OC Insecticides	173
17.5	OP and CM Compounds	175
17.6	OP Insecticides	176
17.7	OP Nerve Agents/Gases.....	176
17.8	OP-Induced Intermediate Syndrome.....	177
17.9	CMs Insecticides	178
17.10	Botanical Insecticides.....	181
17.11	Pyrethroid Insecticides	182
17.12	New Insecticide Classes	183
17.13	Herbicides	183
17.14	Fungicides	186
17.15	Rodenticides.....	186
17.16	Fumigants.....	187
17.16.1	Aluminium Phosphide.....	188
17.17	Naphthalene (Mothballs)	188

Chapter 18

Toxic Effects of Metals

18.1	Introduction.....	190
18.2	Arsenic (Sankhyal, Somalkar).....	190
18.3	Mercury (Quick Silver, Liquid Metal, Para, Padarasa)	193
18.4	Lead (Shisha)	196
18.5	Copper (Thambe, Blue Vitriol).....	198
18.6	Iron	200

Chapter 19**Toxic Effects of Non-Metalics**

19.1	Introduction.....	202
19.2	Toxicity of Non-Metalics	202
19.3	Phosphorus	203
19.4	Chlorine	205
19.5	Bromine	205
19.6	Iodine	206
19.7	Fomaldehyde (Formalin, Methyl aldehyde, Methylene oxide)	207

Chapter 20**Neurotoxic Agents**

20.1	Introduction.....	209
20.2	Opium (Afim) Derivatives	210
20.3	Pethidine (Meperidine)	212
20.4	Alcohol.....	213
20.5	Ethylene Glycol	217
20.6	Chloroform.....	217
20.7	Ether	218
20.8	Chloral Hydrate (Trichloroacetaldehyde)	218
20.9	Barbiturates	219
20.10	Benzodiazepines	222
20.11	Hydrocarbons	223
20.12	Insecticides.....	224
20.13	Datura.....	224
20.14	Cannabis	225
20.15	Cocaine	227
20.16	Strychnine	229

Chapter 21**Toxic Effects of Cardiac Poisons**

21.1	Introduction.....	231
21.2	Oleanders.....	231
21.3	Aconite	233
21.4	Nicotine (Tobacco)	234

Chapter 22**Toxic Effects of Asphyxiants**

22.1	Definition	236
22.2	Classification	236
22.2.1	Chemical Asphyxiants.....	236
22.2.2	Simple Asphyxiants.....	237
22.2.3	Respiratory/Pulmonary Irritant Asphyxiants	237
22.2.4	Systemic Asphyxiants	237
22.3	Carbon Monoxide (CO)	237
22.4	Carbon Dioxide (CO ₂)	239
22.5	Cyanide (Prussic Acid, Cyanogen)	240
22.6	Ammonia (NH ₃)	243
22.7	War Gases	245
22.7.1	Lachrymators (Tear Gases)	245
22.7.2	Lung Irritants (Asphyxiants, Choking Gases).....	246
22.7.3	Nasal Irritants, Vomiting Gases (Sternutators).....	246
22.7.4	Nerve Gases	247
22.7.5	Vesicants (Blister Gases)	247
22.7.6	Paralysants (Nerve and Blood Poisons)	247
22.7.7	Miscellaneous War Gases.....	247

Chapter 23**Toxic Effects of Caustics (Corrosives)**

23.1	Introduction.....	249
23.2	Classification	249

23.3	Acids.....	250
23.3.1	Inorganic Acids/Mineral Acids	250
23.3.2	Organic Acids	253
23.4	Alkalis	257

Chapter 24

Drug Toxicity, Dependence and Abuse

24.1	Introduction.....	259
24.2	Aspirin and other Salicylates	260
24.3	Paracetamol	260
24.4	Drug Dependence and Abuse	261
24.4.1	Definitions and Terminology.....	261
24.4.2	Hallucinogens (Psychedelics)	264
24.4.3	LSD.....	265
24.4.4	Peyote	266
24.4.5	Amphetamines (CNS Stimulant, Hallucinogen)	267
24.4.6	Carbon Tetrachloride.....	267
24.5	Withdrawal Symptoms (Abstinence Syndrome).....	267

Chapter 25

Toxic Effects of Domestic Chemicals

25.1	Domestic/Household Poisons	269
25.1.1	Hydrocarbons	269
25.1.2	Other than Hydrocarbons	270
25.2	Hydrocarbons	270
25.2.1	Aliphatic Hydrocarbons	270
25.2.2	Aromatic Hydrocarbons	272
25.2.3	Halogenated Hydrocarbons	273
25.3	Other than Hydrocarbons.....	273

Chapter 26**Toxic Effects of Poisonous Plants**

26.1	Introduction.....	275
26.2	Abrus Precatorius.....	275
26.3	Ricinus Communis (Castor Oil Plant).....	276
26.4	Croton.....	278
26.5	Calotropis	278
26.6	Semicarpus Anacardium	279
26.7	Capcicum Annum.....	280
26.8	Eucalyptus Globus	280
26.9	Colchicum (Colchicum Autumnale).....	281
26.10	Ergot.....	281

Chapter 27**Food Poisoning and Poisonous Foods**

27.1	Introduction.....	283
27.2	Microbial Toxins	283
27.3	Food Poisoning	284
27.4	Mycotoxins	285
27.5	Algal Toxins.....	286

Chapter 28**Poisons of Animal Origin**

28.1	Introduction.....	288
28.2	Animal Poisons.....	289
28.3	Arthropods.....	289
28.3.1	Arachnids	289
28.3.2	Myriapods (Centipedes, Chilopoda).....	291
28.3.3	Insects	292
28.3.4	Cantharides (Spanish Fly Blister Beetle, Lytta).....	293
28.4	Mollusks (Cone Snails).....	293

28.5	Reptiles	293
28.5.1	Lizards	293
28.5.2	Snakes.....	294
28.5.3	Other Reptile Bites	298

Chapter 29**Chemical Food Poisoning**

29.1	Introduction.....	300
29.2	Mushroom	300
29.3	Poisonous Plant Toxins.....	301
29.4	Poisonous Marine Bites and Stings	302
29.4.1	Poisonous Fishes	302
29.4.2	Shellfish.....	303

Chapter 30**Health effects of Radioactive Materials**

30.1	Introduction.....	305
30.2	Historical Background	305
30.3	Regulatory Aspects of Radiation.....	306
30.4	Standards for Radiation Exposure	306
30.5	Units of Radiation	307
30.6	Types of Radiation	307
30.6.1	Nonionizing Radiation	308
30.6.2	Ionizing Radiation.....	309

Unit-V**Chapter 31****Basic Concepts of Forensic Toxicology**

31.1	Introduction.....	315
31.2	History and Background.....	315
31.3	Courtroom Testimony.....	316

31.4	Investigation	316
31.4.1	Collection of Information	316
31.4.2	Collection of Specimens.....	317
31.4.3	Toxicological Analysis	317
31.4.4	Documentation and Data Interpretation	317

Chapter 32**Applications in Toxicology**

32.1	Introduction.....	318
32.2	Objectives of Analytical Toxicology.....	318
32.3	Analytical Schemes for Toxicant Detection.....	319
32.4	Laboratory Analyses.....	320
32.5	Wet Chemistry.....	321
32.5.1	Qualitative Analytical Tests	321
32.5.2	Quantitative Analytical Methods.....	324

Chapter 33**Clinical Toxicology**

33.1	Introduction.....	326
33.2	Historical Background	326
33.3	Introduction of the Poison Control Center	327
33.4	Acute Poisoning Deaths in India	328
33.5	Causes of Poisoning	328
33.6	Principles of Diagnosis.....	329
33.6.1	Clinical History.....	329
33.6.2	Physical Examination	330
33.6.3	Analytical Evidence	331
33.7	General Management of Poisoning.....	332
33.7.1	Initial Stabilization.....	332
33.7.2	Specific Measures	332
33.7.3	Decontamination	333
33.7	Dialysis.....	335
33.8	Nursing and Psychiatric Care.....	335

Chapter 34

Treatment of Poisoning

34.1	Introduction.....	336
34.2	Specific Treatment (Administration of Antidotes).....	336
Index	341
