<i>Foreword</i>	(v)
<i>Preface</i>	(vii)
<i>Acknowledgement</i>	(ix)

Chapter – 1

Understanding Quality

1.1 World leaders of Quality.....	2
1.2 Definition of Quality.....	3
1.3 Product features	5
1.4 Quality function	8
1.5 Quality relationship.....	10
1.6 Quality Trilogy.....	12
1.7 Contribution of other Disciplines to Quality.....	13
1.8 Little Q & Big Q	15

Chapter – 2

Companywide Quality Assessment

2.1 Cost of Poor Quality	17
2.2 Where your Product Stands in the Market?	31
2.3 Organizing Quality Culture.....	31
2.4 Assessment of Quality System.....	32

Chapter – 3

Quality Organisation

3.1 Co-Ordination of Quality Activities	34
3.2 Organizational Roles.....	34
3.3 Selection, Training and Retention of People	46

Chapter – 4

Quality Culture

4.1 Human Motivation	49
4.2 Corporate Culture.....	59
4.3 Changing Quality Culture	62

Chapter – 5

Strategic Quality Management

5.1 Integrating Quality with Strategic Management	73
5.2 Mission and Vision	74
5.2.1	74
5.2.2	75
5.3 Strategy and Development for Quality	75
5.4 Quality Goals	78
5.5 Deployment of Goals	82
5.6 Providing Leadership for Implementing Strategies	83
5.7 Learning Organization	84
5.8 Hurdles in Achieving Quality	85

Chapter – 6

Designing for Quality

6.1 Design and Development Process	86
6.2 Product Development Process	88
6.3 Reliability Study	89
6.4 Designing for Manufacturability	92
6.5 Design Review	93
6.6 Concurrent Engineering or Simultaneous Engineering	94
6.7 Quality Measurement in Design	95

Chapter – 7

Quality Planning

7.1 The Quality Planning Process	97
--	----

Chapter – 8

Quality Control

8.1 Feedback loop	102
8.2 Steps for Quality Control	102
8.3 Trouble Shooting	110
8.4 Applications of Quality Control Principles to Pharmaceutical Manufacturing	110

Chapter – 9

Quality Assurance and Audits

9.1 Quality Assurance	131
9.2 Pharmaceutical Audits	141
9.2.1 Designing of Internal Audit System	142
9.2.2 Implementing Internal Audit System.....	142
9.2.3 How the Department should prepare for Audit?.....	143
9.2.4 Department wise List of Documents	143
9.2.5 Department wise List of Questionnaire	152

Chapter – 10

Quality Improvement

10.1 Project-by-Project Approach to Quality Improvement.....	182
10.2 Example from Pharmaceutical Industry.....	183
10.3 Advantages of Project-by-Project Approach	185
10.4 Six-Sigma Approach to Quality Improvement	186

Chapter – 11

Quality Manufacturing

11.1 Lean Manufacturing.....	193
11.2 Initial Planning for Quality	195
11.3 Self-Control.....	199
11.4 Automation in Manufacturing.....	204
11.5 Planning for Evaluation of Product.....	204
11.6 Quality Measurement in Manufacturing Operations.....	206
11.7 Manufacturing Flow Charts	207

Chapter – 12

**Acceptance Sampling, Inspection,
Test and Measurement**

12.1 Conformance to Specification and Fitness for use.....	236
12.2 Disposition of Nonconforming Product.....	239
12.3 Inspection Planning.....	239

(xiv) Contents

12.4 Seriousness Classification.....	240
12.5 The Quantum of Inspection.....	241
12.6 Acceptance Sampling.....	243

Chapter – 13

Statistical Process Control

13.1 Advantages of Low Process Variability.....	247
13.2 Statistical Control Charts	247
13.3 Advantages of Statistical Control	248
13.4 Setting up a Control Chart	249
13.5 Pre-Control.....	251
13.6 Process Capability.....	253

<i>Bibliography</i>	257
