<i>Preface</i> .....	(iii)
----------------------	-------

## KEYNOTE PAPERS

1. Pavement Preservation – Need of the Hour <i>V. Vinayaka Ram</i> .....	(xi)
2. Hydrologic Impacts of Climate Change <i>N V Umamahesh and Jew Das</i> .....	(xii)
3. Application of Ground Improvement Techniques - <i>From the Perspective of a Practitioner</i> <i>P.T.Raju</i> .....	(xx)
4. Bonded-FRP based Strengthening of Concrete Beams: Critical Evaluation of Debonding <i>Kolluru V.L. Subramaniam</i> .....	(xxvi)
5. Rationalizing Response Reduction Factor (R) for better Performance of Reinforced Concrete Framed Buildings <i>Swajit Singh Goud and R Pradeep Kumar</i> .....	(xxxiv)

## SESSION-I

### TRANSPORTATION ENGINEERING

1. Model of Existing Intercity Public Transportation <i>GVLN Murthy, Kumar Molugaram and L Vyshnavi Sai</i> .....	3-8
2. Design and Construction of Low Volume Rural Roads Using Reclaimed Materials <i>Pavan.D, Sunil.S and Mallesh. K. M.</i> .....	9-13
3. Speed Flow Estimation for Four Lane Divided National Highways in India <i>Reema Bera, Ashutosh Arun, Sandip Chakraborty and Sudip Kumar Roy</i> .....	14-21
4. Evaluation and Design of Coordinated Traffic Signal System for Selected Road Junctions in Hyderabad <i>Mehrdad Vakilzadehanaraki and R. Srinivasa Kumar</i> .....	22-26
5. A Comparative Study of Black-Cotton Soil Stabilization with RBI Grade-81 and Lime <i>Adepu Naresh and R. Srinivasa Kumar</i> .....	27-31
6. Development of a Parking Demand Model for Hyderabad City <i>Eshrak and R. Srinivasa Kumar</i> .....	32-36
7. Development of Service Delay Models for Urban Uncontrolled Intersections with Heterogeneous Traffic Flow Condition- A Case Study <i>S. Prashanth Kumar, Mane S R Rohith and R. Srinivasa Kumar</i> .....	37-41
8. Stabilization of Black Cotton Soils Using Recron 3s Fibre <i>T. Phani Vikram and R. Srinivasa Kumar</i> .....	42-45

9.	Laboratory Investigation of Reclaimed Asphalt for Fatigue Considerations <i>A.Ramesh and Kumar Molugaram</i> .....	46-53
10.	Enhancement and Optimisation of Bitumen Performance Using Binders <i>Govindaraju Anand, Vanka Aruna, Venu Malagavelli and B. Prasad</i> .....	54-58
11.	A Study of Speed Flow Relationship at a Few Selected Uncontrolled Intersections in Hyderabad City <i>Mane S R Rohith, S. Prashanth Kumar and R. Srinivasa Kumar</i> .....	59-63
12.	Silty Soil Stabilization Using Bituminous Emulsion <i>T. Phani Vikram, Sabbani Venkatesh, GVLN Murthy and R. Srinivasa Kumar</i> .....	64-67
13.	Mode Choice Model of Trip Maker in the Urban Context – A Review <i>B. Prasa<sup>1</sup> and Kumar Molugaram</i> .....	68-73
14.	Stabilization of Black Cotton Soils Using Jindal Global Road Stabilizer (JGRS) <i>P. V. S. Koteswara Rao, Y. Gopi Lavanya, GVLN Murthy and R. Srinivasa Kumar</i> .....	74-79
15.	Development of Master Curves for DSR Parameters of Binder <i>D. Rajashekar Reddy and K.S.Reddy</i> .....	80-85
16.	Policy Strategies to Mitigate the Congestion at Urban Centres in India <i>Kayitha Ravinder, Errampalli Madhu and S Velmurugan</i> .....	86-93
17.	Stabilization of Subgrade Soil Using Flyash <i>Phani Vikram, Mane S R Rohith and R. Srinivasa Kumar</i> .....	94-96
18.	Road Crash Prediction Modeling for Cyberabad Area <i>Chetlapally anukesh and Kumar molugaram</i> .....	97-102
19.	Integrated Land-Use Transport Models – An Overview <i>Prasad, B Ramesh, A, Murthy, GVLN and Kumar Molugaram</i> .....	103-108
20.	A Study on Speed Breakers and its Impact on Speed and Vehicle Operating Cost <i>Korra Ravi Kiran, Kumar Molugaram and Murthy and GVLN</i> .....	109-115
21.	Estimation of Domestic Air Travel Demand in Metropolitan Cities of India Using Time Series Analysis <i>Gulam Dastagir Rizwani, Kumar Molugaram and Ramesh. A</i> .....	116-119
22.	Assessment of Pedestrian Level of Service and its Safety in Heterogeneous Traffic Conditions <i>P. Shravan Kumar Reddy, Kumar Molugara and A. Ramesh</i> .....	120-125
23.	Strengthening of Pavement Layers with the Inclusion of Fiber Reinforcement in Fly Ash- Stone Dust Mixtures <i>T. Sreenivas, K. Pandu and Kumar Molugaram</i> .....	126-130
24.	Modelling Pedestrian Crossing behaviour in Indian Urban Context <i>Shilpa Rathode and Kumar Molugaram</i> .....	131-134

**SESSION-II**  
**WATER RESOURCES ENGINEERING**

1. Evaluation of Hydraulic Performance of Solid and Perforated Plates <i>Nagaraj Sitaram</i> .....	135-141
2. Moringa Oleifera as Biocoagulant: Effect of Ph and Mixing Time on Coagulation <i>G. K. Patil and P. A. Sadgir</i> .....	142-146
3. Regional Climatology using Statistical Downscaling Approaches-Recent Developments <i>Kulkarni Shashikanth and S P Prasanna</i> .....	147-152
4. A Case Study on Comparative Evaluation of Different Reference Evapotranspiration using Seven Methods <i>S.V. S. N. D. L. Prasanna and B. Madhuri</i> .....	153-157
5. Long Term Trends Analysis in Water Demand and Water Use Pattern in Godavari Basin using Geospatial Techniques <i>Zainab Masood and M. Gopal Naik</i> .....	158-163
6. Greater Hyderabad – A Watershed Perspective Using GIS <i>L. Ajay Kumar and Zainab Masood</i> .....	164-169
7. Treatment of Food Processing Wastewater by Aerobic Bioreactors – A Review of Performances <i>G. Shiva Kumar and P. Rajasekhar</i> .....	170-174

**SESSION-III**  
**GEOTECHNICAL ENGINEERING AND  
CONSTRUCTION ENGINEERING AND MANAGEMENT**

1. Collapse Studies on Flyash <i>A. Anil Yadav, K.V. Uday and K. Suresh</i> .....	175-183
2. Stabilization of Soil Using Rock Dust <i>Uday K. V., Sudhakar K, Sunil Reddy K, Thirupathi S, Uday Nayak B and Lalith M</i> .....	184-188
3. Effect of Density of Fill Material on the Performance of A Model Reinforced Soil Wall <i>M.V.S. Sreedhar and Mohammad Muzzaffar Khan</i> .....	189-193
4. Role of Sand Bed Beneath the Foundation on the Soil Structure Interaction <i>M.V.S. Sreedhar and Sriharsha Baditala</i> .....	194-201
5. Cost Economics of Flexible and Rigid Pavements Over Clay Subgrades <i>T. Gnanananda Rao and C.N.V. Satyanarayana Reddy</i> .....	202-206
6. Cost-Schedule Integration, Cash Flow, Working Capital, Uncertainty, and Risk in Construction Industry – A Research Review <i>M. Venu Gopal and V. S. S. Kumar</i> .....	207-214

7. Improvement of A Soft Clayey Subgrade with Reinforced Sand Overlay <i>M.V.S.Sreedhar</i> .....	215-219
8. Estimation of Time and Cost for Highway Road Construction Using Artificial Neural Networks <i>V. Shiva Bala Radhika and M. Gopal Naik</i> .....	220-223

## SESSION-IV CONCRETE TECHNOLOGY

1. Bacterial Concrete: A Biomimetics based Sustainable Self-Healing Biomaterial <i>M V Seshagiri Rao, V Srinivasa Reddy and K Mounika</i> .....	225-231
2. Compressed Stabilized Earth Blocks Using Ordinary Portland Cement and Lime <i>Sambasiva Rao K, Sathish Kumar R, Darga Kumar N and Maganti Janardhana</i> .....	232-238
3. A Study on Fly-Ash Based Geopolymer Concrete with Bacteria <i>D. Annapurna Ravande Kishore and L.Lakshmi Teja</i> .....	239-244
4. A Study on Influence of Nano Silica on the Strength and Durability of Self Compacting Concrete <i>P. Kiran Kumar</i> .....	245-251
5. Mechanical Properties of Concrete Containing Waste Industrial Lathe Scrap Fibres and Micro Silica <i>D. Annapurna and Ashok Kumar</i> .....	252-258
6. Study of Replacement of Fine Aggregate by Fine Glass Pieces <i>B. Kiran Kumar, TVVS Murali Manohar and C. Ravi Kumar Reddy</i> .....	259-262
7. Effect of Steel Fibers in High Strength Concrete with Silica Fume <i>Venu Malagavelli, V. Navaneetha, B. Prasad and P.N.Rao</i> .....	263-267
8. Behavioural Studies on Two Way Slabs With Blended Concretes Under Flexural Loads <i>GVV Satyanarayana, N.R.Dakshina Murthy and M.V.Seshagiri Rao</i> .....	268-275
9. Fly Ash and GGBS Blended Concrete Mixes-Strength and Acid Resistance Studies <i>Bhasker. M, Swami. B.L.P and Sreenivasa Rao. P</i> .....	276-280
10. Bond strength of Geo polymer concrete <i>Vinothini.M, Mallikarjun.G and Rama Seshu.D</i> .....	281-284
11. Experimental Study on Properties of Ternary Blended Self Compacting Concrete Using Quarry Dust as Sand Replacement <i>Mohammed Azam Ali, Mohammed Moiz Khan and Syed Yousufuddin</i> .....	285-292
12. Effect of Aggregate Cementitious Ratio on the Mechanical Properties of Silica Fume Concrete <i>V. Bhikshma and V. Prasad</i> .....	293-298
13. A Study on the Effect of Stress on UPV Values of Concrete <i>K. Rohini and Rama Seshu. D</i> .....	299-301

14. An Experimental Investigation on Bond Characteristics of HYSD Bars and SCC with Recycled Aggregate <i>K Jagannadha Rao, Srinivas V and Sunil</i> .....	302-306
15. High Strength Microsilica Concrete Composites-Study of Strength Properties with and without Fibres <i>Vijaya Kumar S and Swami .B.L.P.</i> .....	307-311
16. A Study on Mechanical Properties of bacterial Concrete with the Addition of Fly Ash and Foundry Sand <i>D.Annapurna and Vipparthi Rajesh</i> .....	312-317

### **SESSION-V TALL BUILDINGS**

1. Seismic behaviour of RC Framed Buildings on Hill Slopes <i>Bathena Alekya and B D V Chandra Mohan Rao</i> .....	319-325
2. Comparative Study of Self Supporting Steel Chimneys with Varying Thickness <i>N. Siva Reddy and A. Mallika</i> .....	326-332
3. A Study on the Applicability of Time Period Formula for Highrise Buildings <i>Shireen Abdul Muqtader and B D V Chandra Mohan Rao</i> .....	333-338
4. Characteristics of Triple Blended High Strength Self Compacting Concrete (M70 Grade) <i>Mallikarjuna Reddy and V, Seshagiri Rao. M.V</i> .....	339-344
5. Influence of Mass & Stiffness Irregularity on Seismic Analysis of Buildings <i>Vannela Murali Kishore and B D V Chandra Mohan Rao</i> .....	345-352
6. Comparative Study on the Behavior of Symmetric and Asymmetric Buildings Subjected to Seismic Load <i>Meet Shah and Sri Kalyana Rama J.</i> .....	353-358
7. Effect of Soft Storey as Vertical Irregularity on the Seismic Response of R.C Frame Buildings <i>Krishna Rao M.V, Avinash, S and Ajay Kumar, S.</i> .....	359-365
8. Mechanical Properties and Cost Evaluation of Concrete with High Volume Fly Ash <i>T Srinivas and N V Ramana Rao</i> .....	366-370
9. Seismic Response of Elevated Rectangular Water Tanks - A Codal Comparison <i>Krishna Rao M.V, Divya Dhatri, K and Rathish Kumar, P</i> .....	371-377
10. Performance of Existing RC Building by Pushover Analysis – A Case Study on 5 Storey RC Frames <i>Rajesh Kodurupaka</i> .....	378-384
11. Analysis of Moment Resisting Frames <i>G.L. Ravi Raj and Kalyana Rama J.S</i> .....	385-390
12. Structural Sustenance of Reinforced Concrete Structures Subjected to Fire <i>D. Reshma Sr<sup>l</sup>, B. Dheera Lessa, K. Koteswar Rao and N. Murali Krishna</i> .....	391-395

13. Structural Restoration Program in Educational Building: A Typical Case Study  
*Ch. Amulya Devi, G. Bharath Kumar, M. Bharath Kumar, S. Sai Kiran and B. Sanjuna* ..... 396-398
14. Structural Health Evaluation Using Non Destructive Testing: A Case Study  
*Ramancharla Sree Ranjani, Subhra Majhi, Sai Prasanth Ramaraju  
and C.Chandra Sekhara Koundinya* ..... 399-403

**SESSION-VI**  
**FINITE ELEMENT METHODS**

1. Analysis of Buried Pipes for Various Depths Using Finite Element Method  
*K. Vishala and A. Mallika* ..... 405-414
2. Mitigation of Seismic Response Using Friction Pendulum Bearings  
*Chethan Kumar B, Ramesh B M, Swathi K and R S Patil*..... 415-420
3. Elastic-Visco-Elastic Modelling of Metal-To-Rubber Sandwich Vibration Dampers  
*V.B.S. Rajendra Prasad, G.Venkata Rao and Syeda Amatul Quadeer* ..... 421-424
4. Free Vibration Analysis of Aluminium Sandwich Panels using FEM  
*G.Nipun and A.Mallika*..... 425-433
5. Effect of Loss of Contact on Bending Moment and Contact Pressure of  
A Beam on Elastic Foundation  
*Ch. Hema Venkata Sekhar, I. Sivarama Krishna and Dr. C. Ravi Kumar Reddy*..... 434-438
6. Effect of Steel Plate Shear Wall on behaviour of Structure  
*Syed Ehtesham Ali*..... 439-442
7. Design of Earthquake Resistant Building by Using Shear Wall  
*J. Usha Kranti and P. Samatha Chowdary* ..... 443-449
8. Analysis of Beam Column Joint Using Finite Element Approach  
*K.L.Radhika, P.Anuradha and M.Naresh* ..... 450-459
9. Analysis of Infill Frame Using Finite Element Approach  
*V. Lavanya, B. Dheera Lessa, P. Anuradha, and N. Murali Krishna* ..... 460-465
10. Stress Analysis in A Rolled Steel Joist Using MSC Nastran - A Case Study  
*R.Nivas, K.Rowena, Y.Varsha, K.Ramya sree and B.Dheera Lessa* ..... 466-468
