Preface	(vii)
Acknowledgments	(ix)
1. Preformulation I (Physical form: Crystal and Amorphous).....	1
2. Preformulation I (Polymorphism, Particle Size/Shape).....	17
3. Preformulation I Solubility Profile (Solubility, pH and pKa)	29
4. Preformulation I Partition Coefficient and Flow Properties.....	41
5. Preformulation II Hydrolysis, Oxidation, Reduction.....	49
6. Preformulation II Racemization.....	59
7. Preformulation II Dissolution, Permeability and BCS	71
8. Preformulation II Polymerization	85
9. Tablets I Introduction.....	93
10. Tablets II Manufacturing Tablets	107
11. Tablets III Tablet Coating.....	119
12. Tablets IV QC of Tablets.....	133
13. Liquid Orals (Syrups and Elixirs).....	145
14. Emulsions I (Introduction Theories and Identification Tests).....	159
15. Emulsions II (Formulation of Emulsions)	167
16. Suspension Dosage Form	191
17. Parenterals I (Introduction: Preformulation of Parenterals)	211
18. Parenterals I (Formulation of Parenterals).....	221
19. Parenterals I (Types of Parenteral Preparations)	235

20. Parenterals I (Plant Layout for Parenterals).....	249
21. Parenterals II (Pyrogens and Pyrogenicity)	259
22. Parenterals II (Sterility Test and Sterilization)	271
23. Capsule I	287
24. Capsule II.....	297
25. Capsule III.....	305
26. Capsule IV	315
27. Pellets and Pelletization.....	325
28. Ophthalmic Preparations: Introduction, Absorption through Eye, Formulation Considerations	335
29. Ophthalmic Preparations: Dosage Form.....	345
30. Ophthalmic Preparations: Evaluation	353
31. Pharmaceutical Aerosols I (Introduction and Classification).....	361
32. Pharmaceutical Aerosols II (Components of Aerosols)	371
33. Pharmaceutical Aerosols III (Components and Systems of Aerosols).....	381
34. Pharmaceutical Aerosols IV (Inhalers and Evaluation of Aerosols)	393
35. Cosmetics I (Introduction).....	405
36. Cosmetics II (Sunscreen Preparations and Dentifrices)	415
37. Cosmetics III (Shampoo, Hair Dye and Lipstick)	425
38. Packaging Materials Science I Materials.....	437
39. Packaging Materials Science II Official Requirements & Stability Aspects	453
40. Packaging Materials Science III QC Tests of Packaging Materials	469
