About the book.....	(v)
Introduction	1
1. Site Selection and Planning.....	5
Introduction	5
1.1 Site Selection.....	6
1.1.1 Location	6
1.1.2 Basic Amenities	6
1.1.3 Access to Public Transportation.....	7
1.2 Site Ecology and Surveys	8
1.3 Site Planning.....	8
1.3.1 Site and Climate Analysis.....	8
1.3.2 Sun Path	9
1.3.3 Wind Rose	11
1.4 Minimise Disturbances to Site	12
1.5 Topographic Microclimate.....	20
1.6 Heat Island Effect.....	23
1.7 Soil Erosion Control	25
1.8 Facilities for Differently Abled	28
References and Source.....	29
2. Water Management	31
Introduction	31
2.1 Specific Water Consumption in Buildings.....	31
2.2 Water Balance	32
2.3 Approach for Water Efficiency.....	33
2.3.1 Reduce.....	34
2.4 Water Efficient Landscaping and Irrigation	43
2.4.1 Recycle	45
2.4.2 Reuse of Treated Waste Water	53
2.5 Recharge	55
2.5.1 Approach and Methodology	55
2.5.2 Estimation of Rainwater Harvesting Potential based on the Surface Run-off	57
2.5.3 Rainwater Harvesting Techniques	60
References and Source.....	64
3. Energy Efficiency	65
3.1 Energy Standards and Codes.....	65

3.2	Energy Efficiency in Building Envelope	69
3.3	Heating Ventilation and Air Conditioning System (HVAC)	83
3.4	Energy Efficiency in Lighting Systems	97
3.5	Renewable Energy System	105
3.6	Renewable Energy Technologies	105
	References and Source	114
4.	Sustainable Building Materials	115
4.1	Sustainable Materials	116
4.1.1	Building Reuse	116
4.1.2	Reuse of Salvaged Materials	117
4.1.3	Recycled Content Materials	118
4.1.4	Local Materials	119
4.1.5	Rapidly Renewable and Certified Wood-based Products	120
4.2	Ecolabelling of Products	120
4.3	Waste Management in Buildings	124
4.4	Construction Waste	124
4.5	Waste Management in Buildings (Post Occupancy)	127
	References and Source	138
5.	Indoor Environmental Quality	139
5.1	Indoor Air Quality	139
5.2	Indoor Environmental Quality – Thermal Comfort	147
5.3	Indoor Environmental Quality – Acoustical Comfort	152
5.4	Indoor Environmental Quality – Ergonomic Comfort	162
5.5	Indoor Environmental Quality – Visual Comfort	176
	References and Source	190
