<i>Preface</i>	(v)
----------------------	-----

Unit 1

Basic Concepts of Dispensing

History of Pharmacy Profession in India.....	1
Pharmacopoeia / Formularies / Compendia	6
Indian Pharmacopoeial Commission (IPC).....	7
The Indian Pharmacopoeia	8
Historical Timeline of IP	9
Process for IP Monograph Development	10
Some Other Official Publications Related to Pharmacy Profession in India.....	11
Pharmacist's Oath (Courtesy: Pharmacy Council of India).....	11
Pharmacist's Code of Ethics.....	12
Good Dispensing Practice (GDP) Guidelines	15
General Packaging Instructions for Dispensing	20
Labeling Directions for Various Types of Preparations	21
Some Important Pharmacopoeial Definitions	23
Routes of Drug Administration	25
Systemic Routes	26
Pharmaceutical Terms	30
Prescription and its Components	39
Handling of Prescription	41
Posology	48
Pediatric Dose Calculations.....	51
Pharmaceutical Calculations	56
Practice Examples	65
Iso-Osmotic and Isotonic Solutions.....	66

Unit 2

Liquid Dosage Forms

Solubility and its Expression	79
Cosolvency	81
Solubilization	83
Complexation	84
Types of Pharmaceutical Grade Water Purified Water (USP)	86
Flavors	96
Monophasic Systems	96
Syrups	102
Elixirs	108
Liniments	113
Linctus	117
Solutions	122
Spirits	125
Eye Drops	127
Ear Drops	129
Gargles and Mouthwashes	129
Enemas	130
Glycerites	133
Miscellaneous Systems	135
Biphasic Systems	137
Emulsions	154
<i>Questions for Viva-voce</i>	166

Unit 3

Solid Dosage Forms

Pharmaceutical Powders and Granules	167
Questions for viva-voce	174
Suppositories	175
Displacement Value (DV)	181
Need for Displacement Value	181
Practical Based on Suppositories	185
<i>Questions for Viva-voce</i>	187

Unit 4

Pharmaceutical Incompatibilities

Definition	188
Physico-Chemical Incompatibilities.....	188
Practical Based on Incompatibilities	205

Unit 5

Semisolid Dosage Forms

Definition	212
Permeability of Drug Through Epidermis.....	214
Ointments	216
Water Miscible Bases.....	222
Practical Based on Ointments.....	231
Gels.....	232
Pastes.....	233
Creams.....	237
Practicals Based on Creams	238

Unit 6

Miscellaneous Topics

List of Some Useful Books and Reference Materials.....	240
Glossary.....	241
Some Common Abbreviations	244
Nominal pH values of some body fluids and sites	244
pKa values of some typical acidic and basic drugs	245
Log P Values of Some Typical Drugs	245
