Preface	(v)
Acknowledgements	(vii)

Chapter 1: UV-Visible Spectroscopy

Introduction	1
Limitations of Lambert-Beer Law	3
Instrumentation of UV-Visible Spectroscopy	3
Effect of Sample Temperature	7
Effect of Sample Concentration	7
Effect of Sample pH	8
Effect of Solvent	8
Effect of a Steric Hindrance	9
Effect of Conjugation	9
Choice of the Solvent	9
K-Bands	10
B-Bands	10
R-Bands	10
E-Transitions	11
Chromophore	11
Auxochrome	11
Absorption and Intensity Shifts	12
Short Questions	20
Long Questions	20

Chapter 2: IR Spectroscopy

Introduction	21
Theory of Infrared Spectroscopy	22
Hooke's Law	23
Instrumentation of IR	24

Molecular Vibrations.....	35
Interpretation of IR.....	38
Short Questions	46
Long Questions	47
Attenuated Total Reflectance (ATR).....	48
Multiple Internal Reflectance (MIR).....	47
Applications	50
Short Questions	50
Long Questions	50
 Chapter 3: Spectrofluorimetry	
Introduction	51
Instrumentation.....	54
Factors Affecting Fluorescence Intensity.....	55
Quenching	56
Applications of Spectrofluorimetry.....	57
Short Questions	58
Long Questions	59
 Chapter 4: Flame Emission Spectroscopy	
Introduction	60
Application of Flame Photometry	67
Short Questions	67
Long Questions	67
Atomic Absorption Spectroscopy	68
Short Questions	72
Long Questions	72
 Chapter 5: NMR Spectroscopy	
Introduction	73
Magnetic Properties of Nuclei.....	73
Spin Quantum Number.....	74
Some basic Concepts in NMR.....	74
Relaxation Process	77
Instrumentation.....	78
Chemical Shift.....	84
Interpretation of NMR Spectra.....	89
Salicylic Acid	95

Diclofenac Sodium	96
Benzoic Acid	97
Paracetamol	99
Isoniazid	100
Short Questions	110
Long Questions	110
¹³ C NMR Spectroscopy	111
Difference between ¹ H-NMR and ¹³ C-NMR.....	117

Chapter 6: Mass Spectrometry

Introduction	118
History	119
Instrumentation.....	119
MALDI.....	120
Electron Spray Ionization (ESI)	122
Fast Atom Bombardment (FAB).....	124
Electron Impact (EI) Ionization.....	125
Ion Mass Analyzers	126
Quadrupole Mass Analyzer	126
TOF Analyzers	127
Detectors.....	128
Faraday Cup	128
Short Questions	142
Long Questions	143

Chapter 7: Chromotography

Thin Layer Chromatography (TLC).....	145
Introduction	145
Principle	146
Instrumentation.....	147
Short Questions	152
Long Questions	153
High Performance Thin Layer Chromatography (HPTLC)	153
Short Questions	157
Long Questions	157
Ion Exchange Chromatography.....	158

Short Questions160

Long Questions161

Column Chromatography161

Short Questions166

Long Questions166

Gas Chromatography.....166

Short Questions175

Long Questions176

High performance liquid chromatography (HPLC)176

Short Questions184

Long Questions184

Ultra High-Performance Liquid Chromatography185

Short Questions188

Long Questions189

Affinity Chromatography189

Short Questions192

Long Questions192

Gel Chromatography192

Short Questions197

Long Questions197

Chapter 8: Electrophoresis

Type of Electrophoresis.....198

Paper Electrophoresis198

Short Questions201

Long Questions201

Gel Electrophoresis202

Short Questions204

Long Questions204

Capillary Electrophoresis204

Short Questions208

Long Questions208

Zone Electrophoresis.....208

Short Questions211

Long Questions211

Moving Zone Electrophoresis211

Short Questions	214
Long Questions	215
Isoelectric focusing	215
Short Questions	217
Long Questions	218

Chapter 9: X-Ray Crystallography

Introduction	219
X-ray Diffraction.....	220
X-ray Powder Method.....	223
Short Questions	226
Long Questions	227

Chapter 10: Potentiometry

Various Types of Electrodes	231
Reference Electrodes.....	233
Applications of Potentiometry.....	234
Short Questions	235
Long Questions	235

Chapter 11: Thermal Analysis Techniques

Thermo Gravimetry Analysis (TGA)	237
Instrumentation.....	237
Applications	239
Short Questions	240
Long Questions	240
Differential Thermal Analysis (DTA).....	240
Instrumentation.....	241
Application.....	242
Short Questions	242
Long Questions	243
Differential Scanning Calorimetry (DSC).....	243
Instrumentation.....	246
Short Questions	249
Long Questions	249

Chapter 12: Bioassay

Principles of Bioassay of Drugs	251
Short Questions	257
Long Questions	258
Enzyme Linked Immunosorbent Assay (ELISA).....	258
Introduction	259
Antigens	259
Antibody.....	260
Antigen-Antibody Interaction	260
Basic Principle.....	262
General Procedure for Elisa	262
Types of Elisa Methods.....	263
Levey- Jennings Chart.....	267
Factors Affecting Test Results in Elisa	267
Applications	268
Short Questions	269
Long Questions	269
Radioimmunoassay (RIA).....	270
Method of RIA	271
Short Questions	277
Long Questions	277
