<i>Preface to Third Edition</i>	(xiii)
<i>Preface to Second Edition</i>	(xv)
<i>Preface to First Edition</i>	(xvii)
<i>Abbreviations</i>	(xix)

Chapter 1

Introduction

What is Clinical Research?	1
Why do we need Clinical Research?	3
Types of Clinical Research	3
Clinical Research Vs Clinical Trial	4
Scope of Clinical Research	5
Issues in Clinical Research	6
<i>Key Points to Remember</i>	7

Chapter 2

Clinical Research in India

Clinical Trials	10
<i>Key Points to Remember</i>	19

Chapter 3

Drug Development Process

Approaches to Drug Discovery.....	22
Preclinical Testing	26
(a) Pharmacological Screening	26
(b) Toxicological Evaluation	28
Development of Chemical and Pharmaceutical Information... ..	31
Investigational New Drug Application (INDA).....	35
Clinical Testing (Human Testing also known as Clinical Trial)	37
<i>Key Points to Remember</i>	44

Chapter 4**Clinical Trials**

Types of Trials	48
Study Design.....	48
Regulatory Requirements of Clinical Trials	55
Responsibilities of Stake Holders	61
Phases of Clinical Trials	64
Post Marketing Assessment	67
Registration of Clinical Trials.....	75
Protocol Amendments.....	80
Compensation	80
Emergency Use Authorization (EUA) [also called Emergency Use Approval]	84
Key Points to Remember	86

Chapter 5**Ethical Issues in Clinical Trials and Biomedical Research**

Fundamental Principle of Ethics.....	90
Statement of General Principles.....	94
Ethical Aspects of Conducting Clinical Trials.....	96
Ethical Aspects of Conducting Biomedical and Health Research	101
Ethics Committee.....	103
Types of Review	109
Key Points to Remember	114

Chapter 6**Good Clinical (Research) Practices (GCP) for
Clinical Research in India**

Prerequisites for the Study	118
Protocol.....	119
Ethical and Safety Considerations	124
Responsibilities	132
Record Keeping and Data Handling	148

Quality Assurance.....	149
Statistics.....	150
Special Concerns.....	152
Key Points to Remember.....	158
Chapter 7	
Quality Assurance in Clinical Research	
SOPs – a Tool to Implement GCP	163
Good Clinical Laboratory Practice (GCLP)	172
Data Management.....	176
Key Points to Remember.....	179
Chapter 8	
Bioavailability and Bioequivalence Studies	
Regulatory Aspect of BA and BE Studies	201
Facilities Required for BA and BE Studies	204
Key Points to Remember.....	212
Chapter 9	
Clinical Trials of Ayurvedic Drugs	
Key Points to Remember.....	219
Chapter 10	
Data Management in Clinical Research	
Key Points to Remember.....	232
APPENDICES	
Appendix – 1 - Glossary of Terms.....	233
Appendix – 2 - Application and Approval Process – Flow Chart – for Global Clinical Trials..	240
Appendix – 3 - Various Forms.....	242
Appendix – 4 - Data to be Submitted along with the Application to Conduct Clinical Trials / Import / Manufacture of New Drugs for Sale in the Country.....	244

Appendix – 5	-	Data required to be Submitted for Grant of Permission to Import or Manufacture of New Drug Already Approved in the Country.....	248
Appendix – 6	-	Data Required to be Submitted by an Applicant for Conduct of Clinical Trial of an Approved New Drug with New Claims, Namely, New Indication or New Dosage form or New Route of Administration or New strength or to Import or Manufacture such New Drug for Sale or Distribution	250
Appendix – 7	-	Data to be Submitted along with Application to Conduct Clinical Trial or Import / Manufacture of Phytopharmaceutical Drug.....	252
Appendix – 8	-	Format for According Approval to Clinical Trial Protocol by the Ethics Committee.....	258
Appendix – 9	-	Contents of the proposed protocol for conducting clinical trial.....	260
Appendix – 10	-	Informed Consent: Check List for Clinical Trial	265
Appendix – 11	-	Undertaking by the Investigator.....	269
Appendix – 12	-	Data Elements for Reporting Serious Adverse Events Occurring in a Clinical Trial or Bioavailability or Bioequivalence Study	272
Appendix -13	-	Clinical Trial Report Format [inclusive of CONSORT Check List]	274
Appendix – 14	-	Investigator’s Brochure.....	277
Appendix – 15	-	Data and Information Required for Grant of Permission to Conduct BA/BE Study of a New Drug or Investigational New Drug	282
Appendix – 16	-	Data and Information Required for Grant of Permission to Conduct BA/BE Study for an Approved New Drug	284

Appendix – 17 - Documents Required for
Registration of Bioavailability and
Bioequivalence Centre 286
