CHAPTER 1: INTRODUCTION TO SIMULINK

1.0 What is Simulink?	1
1.1 Matlab and Simulink.....	2
1.2 Simplifying Complex Simulink Models	14
1.3 Management of Variables in Simulink	15
1.4 Labelling Various Entities	15
1.5 Formatting Blocks.....	16
1.6 Quick Options	16
1.7 Summary	17

CHAPTER 2: BASIC MATHEMATICAL OPERATIONS

2.0 Mathematical Operations	19
2.1 Addition	19
2.2 Product	21
2.3 Division	22
2.4 Square Root	23
2.5 Computing Factorial	24
2.6 Trigonometric Operators.....	25
2.7 Hyperbolic Trigonometric Functions	26
2.8 Mathematical Functions.....	28
2.9 Logarithmic and Exponential Functions	30
2.10 Summary	32

CHAPTER 3: MATRICES

3.0 Matrices.....	33
3.1 Matrix Multiplication.....	33

3.2	Dot Product	35
3.3	Determinant of Matrices.....	37
3.4	Matrix Operations (Selective Display of Elements).....	40
3.5	Summary	47
CHAPTER 4: ALGEBRAIC EQUATIONS		
4.0	Algebraic Equations.....	49
4.1	Solving Algebraic Equation.....	49
4.2	Evaluating Polynomial	51
4.3	Summary	56
CHAPTER 5: COMPLEX NUMBERS		
5.0	Complex Numbers.....	57
5.1	Arithmetic Operation & Extraction of Absolute Quantity.....	57
5.2	Multiplication of Complex Number with its Conjugate.....	58
5.3	Complex to Polar Notation.....	59
5.4	Summary	61
CHAPTER 6: INTERPOLATION AND EXTRAPOLATION OF DATA		
6.0	Interpolation and Extrapolation of Data	63
6.1	Interpolation and Extrapolation of 1-D Data.....	63
6.2	Interpolation and Extrapolation of 1-D Data (Dynamic Input).....	64
6.3	Interpolation and Extrapolation of 2-D Data.....	65
6.4	Locating & Displaying Elements From N-D Data	67
6.5	Displaying Index with Fraction for a Given Data	68
6.6	Data Writing, Storing and Reading at Intermittent Instances.....	69
6.7	Summary	72
CHAPTER 7: CALCULUS		
7.0	Calculus.....	73
7.1	Differentiation	73
7.2	Integration.....	82
7.3	Summary	86
CHAPTER 8: PLOTTING SIGNALS		
8.0	Plotting Signals	87
8.1	Basic Signal Plotting.....	87

8.2	Plotting Signal with Preset Limits	89
8.3	Plotting Signal with Scale Factors.....	91
8.4	Plotting Signal within a Range of Limits	92
8.5	Plotting Signal with Weighting Factors	94
8.6	Plotting Signal with Eliminating Noise Floor	96
8.7	Plotting Signal with Phase Adjustment	98
8.8	Plotting Signals with Adjusting Mean Shift	100
8.9	Clipping the Signal Befor Plotting.....	102
8.10	Indication of Signal Crossover	104
8.11	Indication of Signal Trend.....	108
8.12	Summary	112

CHAPTER 9: SOLVING DIFFERENTIAL EQUATIONS

9.0	Differential Equations.....	113
9.1	Solving Differential Equation.....	113
9.2	Laplace Transform Approach for Solving Differential Equation	118
9.3	Summary	119

References	121
