

Contents

CHAPTER - 1

Laboratory Practices

- 1.1 Knowledge about Chemicals ...1
- 1.2 Solvents ...4
- 1.3 Glassware and Equipments ...7
- 1.4 Glassware Cleaning ...15
- 1.5 Purification Methods ...16
- 1.6 Drying ...21
- 1.7 Determination of Melting Point ...22
- 1.8 Determination of Boiling Point ...23
- 1.9 Yield Calculation ...25

CHAPTER - 2

Laboratory Safety

- 2.1 Safety Practices ...31
- 2.2 Safety Rules ...32
- 2.3 First Aid ...37

CHAPTER - 3

Acylation

- General Reaction Mechanism ...41
- Pharmaceutical Applications ...45
- Preparation of Drug Intermediates ...48
 - 3.1 Preparation of Acetanilide ...48
 - Preparation of Drugs ...51
 - 3.2 Preparation of Paracetamol ...51
 - 3.3 Preparation of Aspirin ...52
- Preparation of Pharmaceutical

Aids ...54

- 3.4 Preparation of N-Acetyl-glycine ...54
 - 3.5 Preparation of Hippuric Acid ...55
- Keypoints ...56

CHAPTER - 4

Alkylation

- General Reaction Mechanism ...57
 - Pharmaceutical Applications ...59
 - Preparation of Drug Intermediates ...60
 - 4.1 Preparation of Methyl-2-Naphthyl Ether ...60
 - 4.2 Preparation of 7-Methoxy-4-Methyl-Coumarin ...61
 - Preparation of Drugs ...63
 - 4.3 Preparation of Antipyrine ...63
- Keypoints ...65

CHAPTER - 5

Aromatic Electrophilic Substitution

- General Reaction Mechanism ...66
 - Pharmaceutical Applications ...69
 - Preparation of Drug Intermediates ...70
 - 5.1 Preparation of Nitrobenzene ...70
 - 5.2 Preparation of meta-Dinitrobenzene ...72
 - 5.3 Preparation of *Para*-Bromoacetanilide ...74
- Keypoints ...76

CHAPTER - 6**Beckmann Rearrangement**

- General Reaction Mechanism ...78
- Pharmaceutical Applications ...79
 - 6.1 Preparation of Benzanilide ...81
 - 6.2 Preparation of Acetanilide ...83
- Keypoints ...85

CHAPTER - 7**Bernthsen Synthesis**

- 7a Bernthsen Acridine Synthesis ...86
 - General Reaction Mechanism ...86
 - 7.1 Preparation of 9-Phenyl-acridine ...88
- 7b Bernthsen Phenothiazine Synthesis ...89
 - 7.2 Preparation of Phenothiazine ...91
- Keypoints ...92

CHAPTER - 8**Biginelli Synthesis**

- Reaction Mechanism ...94
 - 8.1 Preparation of 5-(Ethoxy-carbonyl)-6-methyl-4-phenyl-3,4-dihydropyrimidin-2(1H)-one ...97
 - 8.2 Preparation of Monastrol ...98
- Keypoints ...100

CHAPTER - 9**Biltz Synthesis**

- Pharmaceutical Applications ...101
 - 9.1 Preparation of Phenytoin ...101
- Keypoints ...104

CHAPTER - 10**Borsche-Drechsel Cyclization**

- Reaction Mechanism ...105
- Pharmaceutical Applications ...106
 - 10.1 Preparation of Carbazole ...107
- Keypoints ...109

CHAPTER - 11**Claisen Isoxazole Synthesis**

- Reaction Mechanism ...111
 - 11.1 Preparation of 3,5-Dimethylisoxazole ...112
- Keypoints ...113

CHAPTER - 12**Claisen-Schmidt Reaction**

- Reaction Mechanism ...116
- Pharmaceutical Applications ...117
 - 12.1 Preparation of Benzylidene Acetophenone ...117
- Keypoints ...119

CHAPTER - 13**Diazotization Reaction**

- Reaction Mechanism ...121
- Pharmaceutical Applications ...121
 - 13.1 Preparation of Benzotriazole ...123
 - 13.2 Preparation of p-Iodotoluene ...125
 - 13.3 Preparation of 1-Phenylazo-2-naphthol (Sudan-1) ...126
- Keypoints ...129

CHAPTER - 14**Erlenmeyer-Plochl Azlactone Synthesis**

- 14.1 Preparation of 4-Benzylidene-2-methylazlactone ...131
- Keypoints ...133

CHAPTER - 15**Fischer Indole Synthesis**

- Reaction Mechanism ...134
- Pharmaceutical Applications ...136
 - 15.1 Preparation of 2-Phenylindole ...137
- Keypoints ...139

CHAPTER - 16**Fischer-Speier Esterification**

- General Reaction Mechanism ...141
- Pharmaceutical Applications ...142
- 16.1 Preparation of n-Butyl Acetate ...143
- 16.2 Preparation of Methyl Benzoate ...144
- 16.3 Preparation of Methyl Salicylate ...145
- 16.4 Preparation of Benzocaine ...146
- 16.5 Preparation of Isoniazid ...148
- Keypoints ...149

CHAPTER - 17**Haloform Reaction**

- Reaction Mechanism ...150
- Pharmaceutical Applications ...150
- 17.1 Preparation of Iodoform ...151
- Keypoints ...152

CHAPTER - 18**Hantzsch 1,4-Dihydropyridine Synthesis**

- Reaction Mechanism ...153
- Pharmaceutical Applications ...154
- 18.1 Preparation of Nifedipine ...155
- Keypoints ...156

CHAPTER - 19**Hydrolysis**

- Mechanism of Ester Hydrolysis ...157
- 19.1 Preparation of Benzoic Acid ...160
- Keypoints ...161

CHAPTER - 20**Knoevenagel Condensation**

- Reaction Mechanism ...162
- Pharmaceutical Applications ...163

- 20.1 Preparation of 4-(benzylidene)-5-methyl-2,4-dihydro-3H-pyrazol-3-one ...164
- 20.2 Preparation of 5-Arylidene Thiazolidine-2,4-dione ...166
- Keypoints ...167

CHAPTER - 21**Mannich Reaction**

- General Mechanism ...168
- Pharmaceutical Applications ...169
- 21.1 Preparation of Dimethylamino Propiophenone Hydrochloride ...170
- Keypoints ...171

CHAPTER - 22**Oxidation**

- Important Oxidation Reactions ...175
- Pharmaceutical Applications ...177
- 22.1 Preparation of Benzil ...179
- 22.2 Preparation of Benzoic Acid ...180
- Keypoints ...182

CHAPTER - 23**Paal-Knorr Pyrazole Synthesis**

- Reaction Mechanism ...183
- Pharmaceutical Applications ...184
- 23.1 Preparation of 3,5-Dimethyl-1H-Pyrazole ...185
- 23.2 Preparation of 5-Methyl-2-phenyl-1,3-dihydropyrazol-3-one (intermediate of antipyrine) ...186
- Keypoints ...188

CHAPTER - 24**Paal-Knorr Pyrrole Synthesis**

- Reaction Mechanism ...189
- Pharmaceutical Applications ...190
- 24.1 Preparation of (2,5-Dimethylpyrrole) ...190
- Keypoints ...191

CHAPTER - 25**Paal-Knorr Thiophene Synthesis**

Reaction Mechanism ...192

Pharmaceutical Applications ...193

25.1 Preparation of 2,5-Dimethylthiophene ...193

Keypoints ...194

CHAPTER - 26**Pechmann Reaction**

Reaction Mechanism ...195

Pharmaceutical Applications ...196

26.1 Preparation of 7-Hydroxy-4-Hydroxy-4-Methylcoumarin ...196

26.2 Preparation of Umbelliferone ...199

Keypoints ...200

CHAPTER - 27**Perkin Synthesis**

Reaction Mechanism ...201

Pharmaceutical Applications ...202

27.1 Preparation of Cinnamic Acid ...203

27.2 Preparation of *O*-Acetoxycinnamic Acid ...205

27.3 Preparation of Coumarin ...207

Keypoints ...208

CHAPTER - 28**Phillips Reaction**

Reaction Mechanism ...209

Pharmaceutical Applications ...210

28.1 Preparation of Benzimidazole ...210

Keypoints ...212

CHAPTER - 29**Quinoxaline Synthesis**

Reaction Mechanism ...213

Pharmaceutical Applications ...214

29.1 Preparation of 2,3-Diphenylquinoxaline ...214

Keypoints ...215

CHAPTER - 30**Radziszewski Reaction**

Reaction Mechanism ...216

Pharmaceutical Applications ...217

30.1 Preparation of 4,5-Diphenylimidazole ...217

30.2 Preparation of 2,4,5-Triphenylimidazole ...219

Keypoints ...220

CHAPTER - 31**Reduction**

31.A Catalytic Reduction ...221

Pharmaceutical Applications ...224

31.1 Preparation of Benzhydrol ...224

31.2 Preparation of Vanillyl Alcohol ...225

31.B Metal Hydride Reduction ...226

Pharmaceutical Applications ...228

31.3 Preparation of 3-Nitrobenzyl Alcohol (meta-Nitrobenzyl Alcohol) ...229

31.4 Preparation of *N*-(*m*-Nitrobenzyl) Aniline ...231

31.C Dissolving Metal Reduction ...231

Pharmaceutical Applications ...233

31.5 Preparation of 1,4-Dihydrobenzoic acid (cyclohexa-2,5-diene Carboxylic Acid) ...234

Keypoints ...235

CHAPTER - 32**Reimer-Tiemann Reaction**

Reaction Mechanism ...237

32.1 Preparation of 2-Hydroxynaphthaldehyde (β -Hydroxynaphthaldehyde) ...237

Keypoints ...239

CHAPTER - 33**Schiff Base Synthesis
(Nucleophilic Addition Reaction)**

- Reaction Mechanism ...240
- Pharmaceutical Applications ...241
- 33.1 Preparation of N-(3-Nitrobenzylidene) aniline ...241
- Keypoints ...243

CHAPTER - 34**Skraups Synthesis**

- Reaction Mechanism ...244
- Pharmaceutical Applications ...245
- 34.1 Preparation of Quinoline ...246
- 34.2 Preparation of 8-Hydroxyquinoline ...247
- Keypoints ...248

CHAPTER - 35**Sulphonamide Synthesis**

- Clinically useful Sulphonamides ...249
- 35.1 Preparation of Sulphanilamide ...251
- 35.2 Preparation of Sulphaguanidine ...253
- Keypoints ...254

CHAPTER - 36**Sulphonate Ester Synthesis
(Nucleophilic Substitution Reaction, S_N1)**

- Reaction Mechanism ...255
- 36.1 Preparation of Busulphan ...256
- Keypoints ...257

CHAPTER - 37**Uracil Synthesis**

- Pharmaceutical Applications ...258
- 37.1 Preparation of 6-Methyluracil (Method 1) ...259

- 37.2 Preparation of 6-Methyluracil (Method 2) ...261
- Keypoints ...263

CHAPTER - 38**Vilsmeier-Haack Reaction**

- Reaction Mechanism ...264
- Pharmaceutical Applications ...265
- 38.1 Preparation of 2-Phenylindole-3-carbaldehyde ...266
- Keypoints ...268

CHAPTER - 39**VON Baeyer Synthesis**

- Barbiturate Therapeutics ...269
- 39.1 Preparation of Barbitol ...270
- Keypoints ...272

CHAPTER - 40**Williamson's Ether Synthesis
(Nucleophilic Substitution of alkaliode/aryloxide S_N2)**

- General Reaction Mechanism ...273
- Pharmaceutical Applications ...274
- 40.1 Preparation of Phenetole ...275
- 40.2 Preparation of Phenacetin ...276
- Keypoints ...278

CHAPTER - 41**Wohl-Ziegler Reaction**

- Reaction Mechanism ...279
- Pharmaceutical Applications ...280
- 41.1 Preparation of 3-Bromocyclohexene ...281
- Keypoints ...283

CHAPTER - 42**Semi Quantitative Analysis**

- Limit Test ...284
- 42.1 Limit Test for Chlorides ...285

- 42.2 Limit Test for Sulphates ...287
- 42.3 Limit Test for Iron ...289
- 42.4 Limit Test for Heavy Metals (Method A) ...290
- 42.5 Limit Test for Heavy Metals (Method B, Substances which do not produce clear solution) ...291
- 42.6 Limit Test for Heavy Metals (Method C, for the substances which give clear solution in sodium hydroxide) ...293
- 42.7 Limit Test for Heavy Metals (Method D) ...293
- 42.8 Limit Test for Lead ...295
- 42.9 Limit Test for Arsenic ...296
- Keypoints ...300

QUALITATIVE ANALYSIS

CHAPTER - 43

Analysis of Inorganic Compounds

- 43.1 Systematic Analysis of Inorganic Compounds ...304
- 43.2 Detection of Acid Radicals ...305
- 43.3 Confirmatory Tests for Acid Radicals ...306
- 43.4 Detection of Basic Radicals ...309
- 43.5 Confirmatory Tests for Basic Radicals ...310

CHAPTER - 44

Analysis of Organic Compounds

- 44.1 Preliminary Tests ...319
- 44.2 Solubility Tests ...319
- 44.3 Tests for Saturation ...320
- 44.4 Tests for Aromaticity ...320
- 44.5 Tests for the Special Elements ...321
- 44.6 Functional group Identification ...323
- 44.7 Methods for the Preparation of Derivatives ...334

TITRIMETRIC ANALYSIS

CHAPTER - 45

Estimation of Drugs by Acid-Base Titration

- 45.1 Estimation of Sodium Bicarbonate ...340
- 45.2 Estimation of Ibuprofen Present in Tablets ...340
- 45.3 Estimation of Salicylic Acid...341
- 45.4 Estimation of Acetylsalicylic Acid Present in Tablets ...342
- 45.5 Estimation of Busulphan ...343
- 45.6 Estimation of Codeine Phosphate Present in Syrup ...344
- 45.7 Estimation of Frusemide Present in Tablets ...346
- Keypoints ...346

CHAPTER - 46

Estimation of Drugs by Non-Aqueous Titration

- 46.1 Estimation of Amitriptyline Present in Tablets ...349
- 46.2 Estimation of Chlorpromazine Present in Tablets ...350
- 46.3 Estimation of Phenytoin Present in Tablets ...352
- 46.4 Estimation of Methyl dopa...353
- 46.5 Estimation of Ethambutol Present in Tablets ...354
- 46.6 Estimation of Phenobarbitone Present in Tablets ...355
- Keypoints ...356

CHAPTER - 47

Estimation of Drugs by Diazotization Titration

- 47.1 Estimation of Sulphanilamide...359

- 47.2 Estimation of Dapsone Present in Tablets ...360
 47.3 Estimation of Metronidazole Present in Tablets ...361
 Keypoints ...363

CHAPTER - 48

Estimations of Drugs by Redox Titration

- Permanganometric Titrations ...364
 Iodine Titrations ...365
 Cerimetric Titration ...366
 Permanganometry ...366
 48.1 Estimation of Hydrogen Peroxide ...366
 48.2 Estimation of Ascorbic Acid ...367
 Cerimetry ...368
 48.3 Estimation of Ferrous Sulphate ...368
 48.4 Estimation of Ascorbic Acid ...369
 48.5 Estimation of Paracetamol ...370
 Keypoints ...372

NATURAL PRODUCTS CHEMISTRY

CHAPTER - 49

Isolation of Plant Alkaloids

- 49.1 Isolation of Caffeine from Tea Leaves ...375
 49.2 Isolation of Piperine from Pepper ...377
 Keypoints ...378

CHAPTER - 50

Isolation of Milk Proteins

- 50.1 Isolation of Casein from Milk ...379
 50.2 Isolation of Albumin from Milk ...380
 Keypoints ...381

CHAPTER - 51

Isolation of Carbohydrates

- 51.1 Isolation of Pectin from Apples ...382
 51.2 Isolation of Lactose from Milk ...384
 51.3 Isolation of Starch from Potatoes ...385
 Keypoints ...385

CHAPTER - 52

Isolation of Essential Oils

- 52.1 Isolation of Cinnamon Oil from Cinnamon ...386
 52.2 Isolation of Clove Oil from Clove ...387
 Keypoints ...388

CHAPTER - 53

Isolation of Glycosides

- 53.1 Isolation of Naringin from Grapes ...389
 Keypoints ...391

CHAPTER - 54

Isolation of Flavanoids

- 54.1 Isolation of Hesperidin from Oranges ...392
 Keypoints ...393

CHAPTER - 55

Isolation of Terpenoids

- 55.1 Isolation of Trimyristin and Myristin from Nutmeg ...394
 55.2 Isolation of Carotenoids from Tomatoes and Carrots ...395
 Keypoints ...396

CHAPTER - 56**Qualitative Analysis of Carbohydrates**

- 56.1 General Test for Carbohydrates ...399
- 56.2 Tests for Reducing Sugars ...400
- 56.3 Test to Distinguish Monosaccharides from Disaccharides ...402
- 56.4 Test to Distinguish Ketoses and Aldoses ...402
- 56.5 Tests to Distinguish Pentoses and Hexoses ...403
- 56.6 Confirmatory Tests for Reducing Sugars ...403
- 56.7 Test for Non-reducing Sugar (Sucrose) ...404
- 56.8 Test for Starch and Non-Starch Polysaccharides ...405
- 56.9 Scheme for Identification of Unknown Sugar ...406

CHAPTER - 57**Qualitative Analysis of Amino Acids and Proteins**

- Classification ...407
- 57.1 General Tests for Proteins ...410
- 57.2 Colour Reactions of Proteins ...410
- 57.3 Colour Reactions of Amino Acids ...411
- 57.4 Tests for Proteins ...413
- 57.5 Test for Phosphorous Present in Protein (Casein) ...414
- 57.6 Test for Carbohydrates Present in Protein (Glycoprotein) ...414
- 57.7 Precipitation Reactions for Proteins ...414

CHAPTER - 58**Qualitative Analysis of Alkaloids**

- 58.1 General Tests for Alkaloids ...422
- 58.2 Identification of Phenylethylamine Alkaloids ...424

- 58.3 Identification of Tropane Alkaloids ...424
- 58.4 Identification of Imidazole Alkaloids ...425
- 58.5 Identification of Indole Alkaloids ...425
- 58.6 Identification of Quinoline Alkaloids ...428
- 58.7 Identification of Isoquinoline Alkaloids ...428
- 58.8 Identification of Pyridine Alkaloids ...428
- 58.9 Identification of Purine Alkaloids ...429
- Keypoints ...431

CHAPTER - 59**Qualitative Analysis of Steroids**

- 59.1 General Test for Steroids ...436
- Keypoints ...439

CHAPTER - 60**Qualitative Analysis of Terpenes and Terpenoids**

- 60.1 General Test for Terpenoids ..441
- Keypoints ...443

CHAPTER - 61**Qualitative Analysis of Glycosides**

- 61.1 General Test for Glycosides ..447
- 61.2 Identification of Cardiac Glycosides ...448
- 61.3 Identification of Anthraquinone Glycosides ...449
- 61.4 Identification of Phenolic Glycosides ...450
- 61.5 Identification of Cyanogenic Glycosides ...450
- 61.6 Identification of Coumarin Glycosides ...450
- Keypoints ...451

CHAPTER - 62**Physicochemical Characterization of Natural Products**

- 62.1 Determination of Acid
Value ...452
- 62.2 Determination of Saponification
Value ...453
- 62.3 Determination of Ester
Value ...454
- 62.4 Determination of Peroxide
Value ...455
- 62.5 Determination of Iodine
Value ...456
- 62.6 Determination of Alcohol
Number ...458
Keypoints ...459

CHAPTER - 63**Quantitative Determination of Natural Products**

- 63.1 Estimation of Quinine
Sulphate ...460
- 63.2 Estimation of Ascorbic
Acid ...461
Keypoints ...463

CHAPTER - 64**Degradation of Natural Products**

- 64.1 Isolation of Trimyristin ...464
- 64.2 Degradation of Atropine ...465
Keypoints ...465

Index ...467
