<i>Preface</i>	(v)
<i>Contributors</i>	(vii)
<i>Acknowledgements</i>	(ix)
<b>UNIT 1</b>	<b>1-32</b>
1.1 Carbohydrates	1
1.1.1 Properties of Food Carbohydrates	2
1.1.2 General Methods of Analysis of Food Carbohydrates	4
1.1.3 Changes in Food Carbohydrates during Processing, Digestion, Absorption and Metabolism of Carbohydrates	8
1.1.4 Dietary Fiber	12
1.1.5 Crude Fibre	13
1.1.6 Application of Food Carbohydrates	14
1.2 Protein	14
1.2.1 Introduction	14
1.2.2 Physico-chemical Properties of Proteins	17
1.2.3 Structure of Protein	19
1.2.4 General Methods of Analysis of Proteins and Amino Acids	24
1.2.5 Digestion, Absorption and Metabolism of Proteins	30
<b>UNIT II</b>	<b>33-86</b>
2.1 Lipids	33
2.1.1 Characteristics of Lipids	33
2.1.2 Classification of Lipids	34
2.1.3 Significance of Analysis	37
2.1.4 Analysis of Lipids	38
2.1.5 Estimation of Total Lipid Concentration	39
2.1.6 Determination of Lipid Composition	48

**(xii) Contents**

---

2.1.7	Characterisation of Lipids Physicochemical Properties	59
2.1.8	Processing of Fats and Oils — Refining and Hydrogenation	64
2.2	Vitamins	67
2.2.1	Definition and Importance	67
2.2.2	Classification of Vitamins	68
2.2.3	Methods	69
<b>UNIT III</b>		<b>87-125</b>
3.1	Food Additives	87
3.1.1	Analysis of Preservatives	88
3.1.2	Analysis of Antioxidants	92
3.1.3	Analysis of Artificial Sweeteners	96
3.1.4	Analysis of Flavors, Flavor Enhancers	99
3.1.5	Analysis of Stabilizers, Thickening and Jelling Agents	102
3.2	Pigments and Synthetic Dyes	107
3.2.1	Natural Pigments	107
3.2.2	Occurrence and characteristic properties of Natural Pigments	108
3.2.3	Permitted Synthetic Dyes, Non-permitted Synthetic Dyes used by Industries	111
3.2.4	Method of Detection of Natural, Permitted and Non Permitted Dyes	116
<b>UNIT IV</b>		<b>126-208</b>
4.1	Analysis of Milk	126
4.1.1	Introduction	126
4.1.2	Sample Preparation	127
4.1.3	Analysis of Milk Constituents	127
4.1.4	Detection of Adulterants and Contaminants in Milk	134
4.2	General Analytical Methods for Milk Products	155

4.3	Fermentation Products	168
4.3.1	Introduction	168
4.3.2	Analysis of Fermentation Products	171
<b>UNIT V</b>		<b>209-243</b>
5.1	Analysis of Pesticides	209
5.1.1	Introduction	209
5.1.2	Pest Control Methods	210
5.1.3	Pesticides used in Agricultural Products	212
5.1.4	Pesticide Fate in Environment (Pesticide Cycle)	213
5.1.4	Analysis of Organophosphorus Pesticides	215
5.1.5	Analysis of Organochlorine Pesticides	218
5.2	Legislation Regulations of Food Products with Special Emphasis on BIS, Agmark, FDA, and US-FDA	232
5.2.1	Introduction	232
5.2.2	Food Safety and Standards Act, 2006 – Overview	232
5.2.3	Bureau of Indian Standards (BIS) Indian Standards on Food Safety	233
5.2.4	AGMARK and USFDA	237
